Subject: Title 11 Amendments

Hello,

My name is Marisa Morby and I'm writing in support of the Large Tree Amendment, which helps protect Portland's largest trees from being removed for development. The city needs to keep and expand its shade cover; we just had the last 10 days have hit 90 degrees in Portland, and have had 17 heat related deaths confirmed so far this year. Keeping the Large Tree Amendment and preserving our largest trees helps us reach our climate goals, helps us reach our tree canopy goals, and helps keep our city shaded from extreme heat. Please ensure that the Large Tree Amendment stays in place and active.
