

Portland City Council Agenda  
 Written Testimony - Item 620/587

Agenda Item	Name or Organization	Position	Comments	Attachment	Created
1 587	Anonymous	Oppose	PCEF Interest should NOT be skimmed to plug budget holes or other uses. If anything this money should be returned to the taxpayers. If you want to spend the money differently from the initiative that was passed then return PCEF to the voters for modification or outright repeal	No	06/24/24 11:25 AM
2 587	Anonymous	Oppose	It's inappropriate for funds to be diverted for other purposes. We have hundreds of thousands of units in Portland that are old and not resilient to climate change. We should be investing millions into helping renters upgrade their homes to address heat and cold. Instead Rubio is playing politics with a taxpayer approved fund and sending money elsewhere.	No	06/25/24 10:08 AM
3 620	Anonymous	Oppose	The PCEF has become one big slush fund. It's time to end to program and return the money to the businesses. Send it back to voters. Portland city government sucks and seems to exist to fund extreme far left nonprofits at the expense of hard working taxpayers.	No	07/03/24 6:31 AM
