Portland City Council Agenda
Written Testimony - Item 703

Agenda Item	Name or Organization	Position	Comments	Attachment	Created
1	703 Peggy McDaniel- HAND neighborhood	Support	Please ensure this passes. It will increase the ability of the city to clean up our streets and reduce illegal activity going on in derelict RV's. Thank you!	No	08/05/24 9:06 AM
2	703 Anna Cox	Support	I support the addition of allowing towing for vehicles without license plates and/or identification numbers. Having current license plates is a commonsense policy to ensure that those driving vehicles are doing so responsibly. Without current license plates or registration numbers, a vehicle cannot be insured and should not be on the street. Driving and owning a vehicle require responsibility on the part of the operator and allowing towing of vehicles creates a way to enforce that operators of motor vehicles are engaging in responsible behaviors.	No	08/06/24 9:07 AM
3	703 Anonymous	Support	It's past time to enforce our no parking laws. It takes way too long to ticket and tow illegally parked vehicles in Portland. I support this measure to reduce the lawlessness that has become some prevalent in this once clean and enjoyable city.	No	08/06/24 1:19 PM
4	703 Pablo Vendez	Support	Big thumbs up on this one! Chole Eudaly and Joanne Hardesty did a major disservice to our city when they suspended towing. Portland's descent into lawlessness began with naive actions such as this which involves not enforcing our laws. Vehicles should be towed immediately if they are on public streets and do not have license plates or valid temporary registration displayed.	No	08/06/24 1:29 PM
5	703 Kimberly Jarvis	Support	I am writing in support of code changes regarding towing of vehicles. Long overdue.	No	08/06/24 2:30 PM
6	703 Anonymous	Support	These changes will be an added improvement to clear our neighborhoods of vehicles in violation of parking codes that presently can take weeks to remove via the reporting process. These vehicles pose a hazard to the safety of all accessing our streets. Please vote for this necessary and long overdue change to current code. Thank you	No	08/07/24 5:11 AM
7	703 Linda Nettekoven	Support	I want to convey my strong support for the proposed amendments to the code re: towing & disposition of vehicles. These changes represent sound regulatory policy, designed to be fair and consistent in the treatment of vehicles parked in the right of way. The current code allows individuals to abuse their access to our streets for the parking of recreational vehicles in an ongoing game of whacamole that others have already detailed. This is creating ongoing problems for nearby businesses and residents as well as the staff attempting to enforce the existing code. Please adopt these amendments. Thank you. Linda Nettekoven	No	08/07/24 8:19 AM
