Re: 10/14/24 State of the City Work Session

On 10/14, the Commission will kick-off a discussion for the 2024 State of the City report. While we do not yet have a date secured with City Council, we do know there will be 12 new members and a new mayor. Introducing the Commission's work to this new leadership will be important. This new audience also provides an opportunity to change up the State of the City content and focus from the previous years.

In preparation for the upcoming work session, please look at [previous State of the City reports](#) and the general framework utilized in past reports (below) to get the ideas flowing. We will have more work sessions to focus on the approach and content.

- Message from the Chair
- What We Do
- Recommended Council Action Items
- Commission Priorities
- Preservation Successes
- Projects of the Year
- Watch List
