

Portland City Council Agenda
 Written Testimony - Item 896

Agenda Item	Name or Organization	Position	Comments	Attachment	Created
1 896	Anonymous	Support with changes	We should be increasing the funding for eviction defense to atleast a million a year. \$500k isn't adequate also any rules for taking cases should prioritize the most vulnerable such as seniors and peoples with disability first.	No	10/18/24 1:20 PM
2 896	Anonymous	Support with changes	We're going to shooort under 300 households with these funds? This is absolutely inadequate and we should try to fund assistance for atleast 1000 households per year. Also our city council should make the rental services commission hold meetings and strengthen city ordinance surrounding protections for tenants. Our city council can reduce homelessness by preventing it. Hold deadbeat slumlords accountable by doing city based inspections! Why is it Portland still doesn't inspect rental properties? Also BDS should have atleast one inspector who works on rental properties and prioritizes renters filed code cases. This city is so unfair to renters!	No	10/18/24 6:08 PM
