BE IT FURTHER RESOLVED that the City of Portland fully supports the Portland Diamond Project's proposal and will continue to advocate to bring Major League Baseball to a new stadium at Portland's Zidell Yards.

Purpose of Proposed Legislation and Background Information

This resolution expresses the City of Portland's support for the efforts led by the Portland Diamond Project to bring Major League Baseball to the City. Specifically, it directs City staff to work with the Portland Diamond Project team to advance their vision to attract a franchise and develop a new ballpark at Zidell Yards in the South Waterfront District.

Financial and Budgetary Impacts

This resolution has no direct impact on current City budgets beyond assigning existing staff to help support the ongoing effort, nor does it commit the City financially to any specific project. If the effort is successful, and a Major League Baseball franchise is awarded to Portland, there will be significantly more work to do including detailed financial and budgetary analysis.

Economic and Real Estate Development Impacts

There are no economic or real estate impacts from this resolution as it only declares City support for the Portland Diamond Project and directs staff to participate in efforts to advance the project. If the effort is successful, and a Major League Baseball franchise is awarded to Portland, there will be

significantly more work to do including detailed economic and real estate development impact analysis.

If Portland does attract a Major League Baseball franchise and a new stadium is built in South Waterfront, the local economic and real estate development impacts would be profound.

Community Impacts and Community Involvement

The Portland Diamond Project is a grass roots organization dedicated to the mission of bringing Major League Baseball to the City. They've spent years engaging with community and business leaders to advance their cause and thousands of Portlanders have joined their mailing lists and indicated support for the project.
