Title 11: Large Tree Amendment

PORTLAND PARKS & RECREATION SM

Healthy Parks, Healthy Portland

Overview of Large Tree Amendment

- Provision of Title 11 which increases preservation or mitigation for on-site trees in private development projects
- Originally applied to trees 36" DBH and larger. Lowered to 20" DBH in 2020 by City Council.
- Expires on December 31, 2024. Has been extended once previously.
- Urban Forestry Commission & Planning Commission recommend removing the sunset clause.

Why Tree Preservation Matters

- Loss of services to the community for decades
- Tree planting is long term strategy, rather than immediate mitigation
- Tree preservation also preserves space for future large trees

Figure 1. Theoretical costs and benefit profiles over the lifetime of an individual tree, with (solid lines) and without (dashed lines) adequate maintenance. Benefits are maximized during the mature phase of a tree and decline rapidly through senescence, while costs show an inverse pattern.

Tree Preservation is a Portland Priority

- 2019 Community Engagement
 - 81% supported increasing tree preservation requirements
- 2024 Portland Urban Forest Plan
 - 76% said preserving and caring for trees is very important
- Portland Watershed Management Plan
- Climate Action Plan
- 2035 Comprehensive Plan

Minimal Impact on Housing Development

- 2020 Johnson Economics:
2.7 fewer housing units per year, a
reduction of just 0.06%.
- Fewer than 3% of housing projects paid a
fee under the LTA between 2021 and 2023
 - Fees equivalent to less than
1% of project value
