Mrs. Betsy Welch, Acting Director
Portland Human Resources Commission
8245 S.W. 5th Avenue
Portland, Oregon 97204

Dear Mrs. Welch:

This letter is intended to give confirmation of the Children's Services Division's intent to maintain a specialized foster care program in the Model Cities area beyond the expiration of Model Cities funding. At this time, we would anticipate using Fourth Action Year funding to modify the existing project to a level which could be absorbed in the ongoing Children's Services program. This would be accomplished through continuous cooperative planning with the staff of Model Cities in the coming year.

By the end of Fourth Action Year we would anticipate a broadened scope for the program encompassing responsibility for screening all children for whom foster care is being considered as a plan and providing exploratory services to the child, his own family and foster family. This will increase the number of children and families who would be recipients of the skills and knowledge developed by staff while functioning as a demonstration project. An additional function would include establishing and reviewing contracts for special needs and assuming casework responsibility for maintenance and supervision of cases requiring intensive specialized attention. This could include children diverted from institutional placement, after care for returnees from institutional and group care, children exhibiting serious behavior problems which are indicators of delinquent or pre-delinquent potential, and those children with special needs related to educational planning or emancipation.

In order to accomplish these tasks, it will be necessary to maintain small caseloads to allow for indepth service. The major recruitment and licensing responsibility would be diverted to our Central Foster Care Resource Unit.

*26: Foster Care
3rd AY EXT.*

Mrs. Betsy Welch
June 1, 1973
Page 2

In essence, we would maintain the components in the current project which provide for direct services to children and families, and related supportive services. The result would be availability of intensive specialized service to an expanded population.

We are looking forward to a personal discussion of this matter with you.

Sincerely,

Fred Stock, Director
Region I
Children's Services Division

INTEROFFICE MEMO

TO: Mrs. Anita Leach, Director
Personnel Services
Children's Services Division
Salem, Oregon 97310

FROM: Lewis L. Winchester, Director
Children's Services Division
Model Cities District

SUBJECT: MODEL CITIES FOSTER CARE PROJECT

DATE: March 30, 1973

I am writing to confirm Mr. Fred Stock's contact with you on Monday, March 26, 1973, regarding personnel matters related to the Model Cities Foster Care Project.

According to Mr. Stock, you agreed that the State Children's Services Division would be able to absorb the deficit in our personnel budget which we anticipate will occur in the next fiscal year as a result of our limitations of funding by Model Cities. We understand this will be accomplished through normal turnover and vacancies. We have been informed that the project will be funded at 3rd action (current) year level by Model Cities which will make it impossible to provide the project staff with normal salary increases including promotional, merit and cost of living raises which will be available to all other permanent civil service staff.

We have attached copies of our personnel budget showing both the funding at this year's level and the projected required funding for fiscal year June 16, 1973 - June 15, 1974. It is the difference between the two for which we need your assistance.

I hope this is an accurate restatement of your commitment, however, please contact me if you deem it necessary.

Department of Public Affairs

Commissioner Mildred Schwab

Model Cities Special Foster Care Project

In the screening session regarding this project on April 25, a number of questions were raised regarding the commitment of Children's Services Division to assume any element of this program after the end of Model Cities funding. It was generally agreed by CSD, Model Cities and Human Resources Bureau that since assumption was not contemplated at anything approaching the current operational level, a revised project proposal be submitted. That revision was to phase the program to the intended assumption level.

No revision of the project has been developed by CSD. The absence of a budget, as described in the letter from Don Miller, makes any operational commitment difficult for CSD. With Mr. Miller and Mr. Orton's letter and with conversations with CSD administrative staff, Mr. Raubeson and I feel that there is a commitment to deal with the issues which have been raised.

The following amendment to the contract is proposed to assure that alternative planning be effectuated as soon as possible:

This contract is subject to the condition that within 3 months of the effective date, CSD shall, working in cooperation with Model Cities and Human Resources Bureau, develop a phase out plan and revised proposal. This plan and proposal shall be submitted to the Citizens Planning Board of Model Cities and thereafter to the City Council for appropriate action.

Mrs. Eetsy Welch, Acting Director
Portland Human Resources Commission
8245 S.W. 5th Avenue
Portland, Oregon 97204

Dear Mrs. Welch:

This is further to Fred Stock's letter written to you earlier in relation to the continued support by CSD of the Model Cities Special Foster Care Project. It is Division's desire to continue the funding of this project for the next action year. However, in making a commitment at this time there are specific areas to be considered. These are:

1. CSD has not yet received a budget allocation for any part of the program from Ways and Means up to this time. The Governor's recommended budget includes continued funding of this project. We are in no position to know if this item will be in the final approved budget to be effective July 1, 1973.
2. The Model Cities share for use in federal matching for the project we understand will be phased out by June 15, 1974. If possible, it is the intent of Region I CSD office to plan to continue the use of the small specialized load concept. However, this would be modified to allow more children to be screened by the project. The problem is that of CSD picking up any of the share of Model Cities because of the question of capability of the Foster Family Care budget being able to assimilate such a cost. It is conceivable because of the possible change in the federal matching formula that general fund dollars might have to be increased. As a result, it might be necessary to consider obtaining approval for an increase in general funds from the Emergency Board to continue the project after June 15, 1974.

RECEIVED

JUN 12 1973

MODEL CITIES

HUMAN RESOURCES
BUREAU

JUN 11 1973

Mrs. Betsy Welch

Page 2

June 11, 1973

3. It is possible that because of the uncertainty of federal funding for the next biennium, CSD might only be budgeted for the first year of the biennium.

It is unfortunate that I cannot be more specific about a commitment by the Division at this time. All that can be said is that CSD agrees to continue the funding of this project if this is fiscally possible. If it is clarified that continuation is possible, the necessary evaluative components will be built into the demonstration project.

In closing, I might add that Teletha Benjamin, supervisor of this project in Region I, will attend the council meeting on June 12 to answer any questions council members may have.

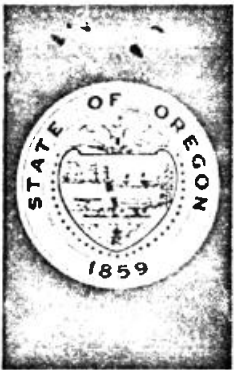

Sincerely,

Don Miller

Re: Model Cities Foster Care Project

Dear Mr. Raubeson:

This letter is written to request that any unexpended funds at the close of the Third Action Year, in the project referred to above, be carried over to apply toward the budget for the Fourth Action Year.

As you are, no doubt, aware, our expenditures for the current year are below the level anticipated. This has been due to a problem of an insufficient number of foster homes to accommodate the individual needs of children referred. One difficulty contributing to this problem is the fact that the staff providing direct service have also had to do foster home recruiting and certifying.

Our budget for the Fourth Action Year is considerably larger than the current budget. This is attributed to two primary factors. Firstly, there is an increase in the foster care rate based upon the expectation that the Legislature will increase the standard foster care rates. Secondly, there is provision for the hiring of one more caseworker whose basic responsibility it will be to recruit and certify foster homes for the Project.

I am also requesting that you consider the feasibility of CSD submitting its monthly reports one month delayed, i.e., February report would be due by April first, March report would be due May first, etc. My request stems from the fact that our Fiscal Section in Salem requires ten (10) working days to separate the necessary Project data, which means that it is approximately the fifteenth of the following month before we receive the financial information to be collated with the narrative portion of the report. Hence, our reports are always late according to the current timetable of expectation.
