We cannot solve this alone. These drugs are manufactured outside the U.S., brought here, & moved between states—need feds to tackle distribution networks. We recognize the need for City/Cty/St/Fed law enforcement to seize drugs/prosecute suppliers/dealers

Fentanyl & methamphetamines are profoundly impacting Portland. These drugs are more potent/cheaper/accessible than ever. They are killing Portlanders at historic rates-greater than gun violence-& those losses reverberate among those left living.

The Charter Commission wants to hear from you about their recommended changes. They have scheduled four public hearings in May (online and in-person) for community members to share their thoughts! Learn more about their recommendations and comment here: bit.ly/Charter-Hearin...pic.twitter.com/dfX0ZB6EhB

WHAT ARE GEOGRAPHIC DISTRICTS WITH MULTIPLE COUNCIL MEMBERS?

EXAMPLE: DISTRICT ONE (EAST PORTLAND) WITH THREE CITY COUNCIL MEMBERS

Right now, Portland has four city commissioners that represent the city as a whole. Creating **four geographic districts of equal size with three council members** to represent each district will increase accountability between residents and elected leaders and improve representation for geographic and diverse communities.

WHAT IS A MAYOR-COUNCIL FORM OF GOVERNMENT?

In the current commission government, the mayor and city commissioners directly manage the city's bureaus. Shifting to a **mayor-council form of government**, in which City Council can focus on passing laws and the mayor can help implement them alongside a professional city administrator will help create a more responsive government.

WHAT IS RANKED CHOICE VOTING?

-  1st choice
-  2nd choice
-  3rd choice
-  4th choice
-  5th choice

Currently, Portland voters can only pick one candidate when they vote for each position of City Council. **Ranked choice voting** gives voters more choices to express their true preferences and make their vote count by allowing voters to rank as many candidates as they'd like in their order of preference.
