

Preference Policy

Waitlist Management Recommendations

Leslie Goodlow, Director Equity and Business Operations May 8, 2025

Goals

- Reduce time to get a list to leasing team
- Create targeted lists based on unit size desired by applicants
- Decrease data entry errors by utilizing technology – QR codes
- Decrease time for partners to receive a waiver if list does not result in a leased unit
- List purge updates

Notification from Leasing Team of vacancy in the building by 1st or 3rd Wednesday noon PHB staff will sort the list based on applicant's preference by unit size and send notification on 1st/3rd Friday each month

Applicants have 10 days to respond to PHB with the pre-app form and the unit/building they are interested in

PHB staff will sort the respondents based on list order List will be sent to each leasing team with the specific applicants that have responded

Leasing team will contact the applicants in list order by two methods Once list is completed, if unit is not leased a waiver can be requested upon return of the completed list

Waiver sent to

leasing team

31	1 (September) Leasing team returns list and required Info; waiver available	2	3	4	5	6

Waitlist Transfers

Proposed Process: Applicants will be added to the waitlist on a consistent **monthly basis** following a duplicate check. Notification letters will include clear guidance in plain language on the waitlist process, available housing opportunities, and next steps. The process will be standardized to allow for more predictable list updates and improved communication with applicants.

Request for applicants

For all requests, property owners will be required to submit **referral requests via a standardized form** that will collect the income limit, rent amount (including utilities), bedroom size, and other details needed to promote the housing opportunity. They must also provide a **rent and unit matrix** at least once per year—or whenever rent changes for one or more units in their building. Property owners will also be required to **report when an applicant accepts an apartment immediately**, enabling real-time updates to the waitlist and reducing administrative inefficiencies. They must also complete the Unit Availability Tracker for all units subject to the preference policy (other units optional) so that we can track the number of days a unit is vacant so waivers can be issued sooner.

5/5/2025

Waitlist Purge Process

Proposed Process: There will be a quarterly purge. Applicants who have been on the list for 12 months or longer are sent a notice on a **quarterly basis** to verify continued interest and update contact information as required for maintaining active status. There will also be a **rolling purge based on referral readiness.** Before referring a household to a property owner, a notice will be sent. If there is no response within 5-10 days \rightarrow **pause referral, not removal**. If 30 days has passed, they will be removed.

Relationship and Stakeholder Engagement

- We need to diversify outreach by incorporating virtual (e.g. Zoom sessions), multimedia, and in-person opportunities (community tabling, library office hours).
- Regular presence in community spaces can build trust and familiarity, especially in underrepresented neighborhoods.
- Engagement should be proactive, not just transactional—we need to connect before and between housing opportunities.
- Communications should be clear, consistent, and culturally responsive, potentially with translation or interpretation as needed.
- Improve relationship and communication with partners

5/5/2025

Communication and Engagement Improvements

To address the confusion around the list, the team will:

- Attend tabling events at least once per quarter or send materials
- Host monthly or bi-monthly information sessions (in person or virtual)
- Develop videos that explain the process, how to apply, and what to expect
- Reprint flyers with QR codes to videos and our website.
- Visit government and non-governmental organizations to train their staff on how to support people on the list

The goal in each of these is making sure people are clear on what kind of list the bureau has, how to apply, and what to expect.
