INTRODUCTION

Since 1958, the Portland Development Commission has played a major role in the revitalization of Portland's downtown and surrounding urban neighborhoods. Apart from its many responsibilities as the City of Portland's urban renewal agency, the Commission has also worked extensively in the area of neighborhood revitalization and community development, concentrating on single and multi-family housing rehabilitation. Funds for these activities come from the federal Housing and Community Development Block Grant Program, its Section 312 loan program and various special purpose grants.

Portland's housing programs are based on a City Council approved Housing Policy. The goals of this Policy address a number of areas of need city-wide. These goals include the replacement of housing lost in the downtown area, rehabilitation of the existing housing stock to combat deterioration and blight, and the creation of new single-family and multi-family housing.

Since 1965, the PDC has offered a series of loan programs to encourage the rehabilitation of single-family, multi-family and investor-owned properties. More recent, innovative programs encourage new construction of middle income housing and the "recycling" of vacant or abandoned housing. All these programs help to upgrade and maintain the City's housing stock.

The Housing and Community Development Act (HCD) of 1974 made it possible for the Commission to focus its attention on improving the supply and quality of housing for low and moderate income people through Community Development Block Grant funding. Identification of certain deteriorating neighborhoods targeted further efforts for revitalization and improvement of neighborhoods as well as the community as a whole. The result of this major commitment to housing and neighborhood conservation by the City is apparent in the overall high quality and livability of the community that is known nation wide.

The majority of PDC's rehabilitation loans are made to owners of single-family homes. However, PDC also administers programs for investor-owned properties, for commercial, historic, multi-family, and mixed-use properties.

This Housing Project Reference File is a profile of many of the projects funded in part by the Portland Development Commission's Investor Rehabilitation Loan (IRL) Program as well as other sources in which PDC's role was key. It provides detailed information about non-profit, historic, residential/mixed-use rehabilitation and new construction projects.

For further information about projects listed in the Project Reference File, contact:

PROJECT DESCRIPTION

TYPE: New Construction

LOCATION: N.W. 28th & Upshur

NUMBER OF UNITS: 42

PROJECT COST: \$2,250,000

PROJECT FEATURES: As partial implementation of the Thurman Vaughn Corridor Plan, 42 moderate income condominiums were constructed on property previously owned by the state. 1, 2 and 3-bedroom units cost \$49,000, \$59,000 and \$69,000 respectively. Development guidelines were formulated in conjunction with the Thurman Vaughn Neighborhood Committee. Portland Development Commission solicited proposals for competitive selection of the developer. The development was planned for three phases with buildings clustered around greens providing excellent design compatibility with the surrounding neighborhood.

START: August, 1981

COMPLETION: The project was constructed in phases. The final phase to be completed in December, 1984.

DEVELOPMENT & FINANCING

PROJECT DESCRIPTION

TYPE: Rehabilitation

LOCATION: 2743 N.W. Thurman

NUMBER OF UNITS: 8

PROJECT COST:

PURCHASE: \$85,000

REHABILITATION: \$116,000

TOTAL: \$201,000

PROJECT FEATURES: This project combined the resources of the State and City to convert State-owned property to lower income home ownership. The 8-unit brick apartment complex was originally purchased for highway right-of-way. Cancellation of the highway project necessitated selling the property. The occupants organized and an acquisition and rehab project was structured to convert the property to condominium ownership. Four of the existing tenants purchased their units. Financing included PDC rehab loans and the Oregon State Single-Family Mortgage Purchase program.

START: Building purchased Fall, 1980

COMPLETION: Rehab complete March, 1981

PROJECT DESCRIPTION

TYPE: Rehabilitation
 LOCATION: 310 N.W. Sixth
 NUMBER OF UNITS: 78
 PROJECT COST: \$673,700
 PROJECT FEATURES: This building was partially damaged by fire and required extensive work to bring building into an economical maintenance cycle. The existing 84 units were converted to 78 rooms under the City's SRO (Single-Room Occupancy) Demonstration Program. The completed structure provides a combination of sleeping rooms with and without kitchen units and all share common restroom facilities. Complete fire and security systems were installed with major plumbing, electrical, and heating systems improved. Individual occupants receive rental assistance under the Section 8 Moderate Rehabilitation Program.

 LOCATION: 1019 S.W. 10th Avenue
 NUMBER OF UNITS: 84
 PROJECT COST: \$3,717,250
 PROJECT FEATURES: Conversion of the Odd Fellows Building, an underutilized commercial building, to 84 units of Section 8 elderly housing. This first project of the City's Neighborhood Strategy Area program restores a historical landmark, creates new housing and maintains supporting retail space on the ground floor. Section 8 rent subsidies, state tax-exempt bond financing, city relocation assistance and limited property tax abatement aided project feasibility. Unique feature is creation of covered 6-story courtyard within existing structure.

 LOCATION: 1117 S.W. Stark
 NUMBER OF UNITS: 81
 PROJECT COST: \$1,001,000
 PROJECT FEATURES: This building was the first project completed under Portland's SRO (Single-Room Occupancy) Demonstration Program. The original 99 rooms were modified to comply with the City's minimum housing regulations adopted for SRO type units. The resulting 81 units were improved to provide safe, more livable conditions. New community kitchens were constructed on each floor and common restrooms were remodeled to current standards. Fire sprinklers, interior finishes, storage cabinets, doors, locks, plumbing and electrical improvements were completed. The State Housing Division participated with the Portland Development Commission to provide necessary financing.

 LOCATION: 1101-1139 S.W. Jefferson
 NUMBER OF UNITS: 80
 PROJECT COST: \$1,328,600
 PROJECT FEATURES: This 2-part structure, half hotel and half apartments, had deteriorated to a point of being unfit for habitation. Substantial rehabilitation has provided housing for low-income and handicapped persons under the SRO demonstration, and added 30 inexpensive apartment units. Work included considerable upgrading of electrical, plumbing and mechanical systems, interior and exterior repairs and finishes, and a new elevator and lobby area. In addition, commercial areas have been redesigned including relocating the theatre and creating proper fire separation between the residential and commercial areas. Occupants of the SRO units receive rent assistance under the Section 8 Moderate Rehabilitation Program. The apartment units are rented on the open market, or to qualified holders of rent certificates.

LOCATION: 532 S.E. Grand Avenue

NUMBER OF UNITS: 12

PROJECT COST:

 PURCHASE: \$42,000

 REHABILITATION: \$291,044

 TOTAL: \$333,044

PROJECT FEATURES: Excellent example of exterior restoration of Victorian Italianate architecture dating back to 1891. The ground floor of the Barber Block, containing approximately 3,000 sq.ft., includes a seafood restaurant/lounge utilizing the entire ground floor. The 2nd and 3rd floors, containing approximately 3,000 sq.ft. each, were converted from very small one-room sleeping quarters to efficiency, one-, two- and three-bedroom apartments. Much of the existing interior woodwork was stripped and refinished, and extensive work was done to restore the exterior finish to its original condition.
