MEMORANDUM

TO: DAVE MAGIN, TRAFFIC ENGINEERING  
FROM: ANNE LAWSON-BEERMAN *A.*  
SUBJECT: ONE WAY ON N. ALBINA

As we discussed on the phone yesterday, the intersection of eastbound N. Albina and N. Interstate Avenues is quite unsafe for right turns because of the curve of Interstate Ave. I spoke on October 1st with Mr. Shearer, owner of the Interstate Cafe, and by phone on October 9th with Dick Sutherland of Fabri-Valve and Bill Key of Techni-Glas, about making Albina one-way westbound between Railroad Ave. and Interstate Ave. All three agreed this would be a good idea. Bill Key said he would like to have parking without time limits (as are now imposed) by Techni-Glas.

Would you please do whatever it takes to implement this? Call me for any assistance I might be able to give you.

Thank you.
