

71 Solid Waste and Recycling - Printable Version - Edit Content

Decrease the pounds of solid waste land-filled per capita per year.

After peaking in 1999, solid waste disposed of in land-fills in the metro region decreased on a pounds per capita basis for two years, then remained basically unchanged for the next two. In 2004, however, the trend started rising to the point where in 2006 each citizen in the tri-county metro region disposed an average of 1,736 pounds of solid waste.

Solid Waste Disposed, Pounds Per Capita
