

AMENDMENT NO. 1

CONTRACT NO. 30001169

FOR

Evaluation of Curbside Food Scrap Collection Pilot Portland Recycles! Phase II: Recycling and
Garbage Services

This Contract was made and entered by and between Campbell DeLong Resources, Inc., hereinafter called Contractor, and the City of Portland, a municipal corporation of the State of Oregon, by and through its duly authorized representatives, hereinafter called City.

1. Additional work is necessary as described in the Scope of Work as follows:
Bureau leadership added one additional minute of questions to the pre-survey phone questionnaire at a cost of \$600.
The original scope of work delivered one post pilot implementation focus group. The pilot tested the delivery of two distinct recycling, garbage, yard debris and food waste service packages to residents. Combining these two distinct groups into one focus group would compromise the research results. The addition of one focus group will allow the Contractor to facilitate two post pilot implementation focus groups where participants are divided based on the type of service they received. The cost for one additional focus group is \$5,600.
Participant data was supplied by the recycling and garbage service providers. This data source is heavily skewed to home owners. Two additions to the scope of work have been identified to receive opinions and feedback from a better representative sample of pilot households (that includes both renters and home owners) are: 1) run a process that matches site addresses to phone numbers at a cost of up to \$600, and 2) add a third focus group with renter participants at a cost of \$6,200.

2. Additional compensation is necessary and shall not exceed \$13,000.

All other terms and conditions shall remain unchanged and in full force and effect.

CONTRACTOR SIGNATURE:

This contract amendment may be signed in two (2) or more counterparts, each of which shall be deemed an original, and which, when taken together, shall constitute one and the same contract amendment.

The parties agree the City and Contractor may conduct this transaction by electronic means, including the use of electronic signatures.
