¹ Also includes motel voucher recipients as well as 60 respondents whose specific shelter location was unknown. These respondents were only included in the total ONSC figures in the Point-in-Time report; for this reason, the figures in this table are slightly different from those in the report.

² The ONSC Categories include households who are not currently homeless but would likely be homeless without rent assistance or permanent supportive housing (PSH). The ONSC figures in this table do not include turnaways except for turnaways who said they would be unsheltered and were therefore included in the unsheltered count.
