PUBLIC INVOLVEMENT

8) Was public involvement included in the development of this Council item (e.g. ordinance, resolution, or report)? Please check the appropriate box below:

☐ YES: Please proceed to Question #9.

☒ NO: Please, explain why below; and proceed to Question #10.

The public is invited via various means (i.e., press releases, information on PP&R website, word of mouth, individual recruitment by current members) to apply for open positions on the Parks Board. The Parks Board then utilizes an *ad hoc* committee of the Board to review applications and make recommendations to the Board regarding new members.

9) If "YES," please answer the following questions:

a) What impacts are anticipated in the community from this proposed Council item?

b) Which community and business groups, under-represented groups, organizations, external government entities, and other interested parties were involved in this effort, and when and how were they involved?

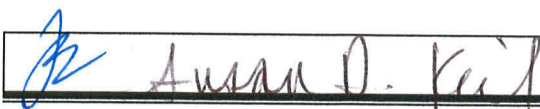

c) How did public involvement shape the outcome of this Council item?

d) Who designed and implemented the public involvement related to this Council item?

e) Primary contact for more information on this public involvement process (name, title, phone, email):

10) Is any future public involvement anticipated or necessary for this Council item? Please describe why or why not.

No. The Parks Board anticipates it will continue to utilize its *ad hoc* committee to make recommendations to the Board and the Mayor on future members.

1st Choice:

Name of Board/Commission/Committee: Portland Parks Board

A. Reasons for wanting to serve on this group:

As a regular user of parks in several Portland quadrants, I'm very interested in becoming more involved in the management and decision-making regarding those parks. As a hiker, dog owner, and runner, I believe that Portland city parks offer many different user groups a host of entertainment, recreation and fitness options. I live near Tryon Creek, Marshall and Maricara Parks and have seen what the city of Portland has accomplished in both—especially in Maricara. I exercise weekly at Mt. Tabor and I have also used the Dishman and Southwest Community Centers and read about their offerings regularly. I firmly believe that city parks and community centers need to be all-inclusive and accommodating for the many interested and varied citizens of Portland.

B. List skills or knowledge that would be relevant to this Board/Commission

I have experience with budget preparation and presentation to a Board of Directors, some advocacy experience for nonprofit organizations, and extensive experience with annual report preparation. I have also participated in several public outreach events and education campaigns for a variety of nonprofit organizations.

C. List work or volunteer experience that would add to your expertise for this Board/Commission

Dates (from/to)	Employer or Volunteer Activity	Responsibilities
2007-2010	Oregon Community Foundation (OCF)	Annual Budget input and planning
2007-2010	OCF	Annual Report preparation and participation
2005-2007	Surfrider Foundation	Advocacy, activism, and environmental research and participation

Anything else you'd like to add?

List your experience working on diverse teams or committees:

I've worked on committees with everyone from CEOs to surfers. The most successful committees I've participated on come from groups of committed individuals with a common goal, regardless of background. In my experience, recruiting diverse committees allows for lots of new, fresh ideas rather than succumbing to "groupthink," and rehashing the same ideas *ad infinitum*.

My most successful experience on a committee was the launch of the Snowrider Project of the Surfrider Foundation. It was a multi-pronged project including promotion of the new brand, partnerships with local shops and ski resorts as well as pitching a science curriculum to local middle school teachers. We ended up with the curriculum in 15 classrooms and had events all over the metro area and on Mt. Hood.

Describe your understanding of the services the City of Portland provides:

The City of Portland provides everything from police and fire services to community center classes for all ages. It is a large, diverse organization of hundreds of employees and thousands of volunteers who do everything from managing to budget to pulling ivy in the parks.

It is a complex system of moving parts, all of which need to be constantly engaged with the populace in order to keep the City operating smoothly.

Public opinion and participation is highly encouraged, as the input of the citizenry helps city leaders do their jobs more effectively, and allows the commissioners to optimally serve their constituents.

1st Choice:Name of Board/Commission/Committee: Portland Parks Board

A. Reasons for wanting to serve on this group:

I've been looking for a new volunteer activity, and after much research I am interested in the Parks Board because of the diversity of roles Portland Parks play in the city. I grew up in Portland across the street from Mt. Tabor Park, and attended summer parks-sponsored activities there every year. I learned to swim at the pool in Buckman Elementary School, my family attends the concerts in the park every year at Laurelhurst Park and all three of my children learned to swim at Sellwood Pool. They eventually became swim instructors themselves at Sellwood Pool. I'm interested in the future course of Portland Parks and would like to participate in preserving this special resource and helping to promote new opportunities ahead.

B. List skills or knowledge that would be relevant to this Board/Commission:

- Experience serving on other boards (see below)
- Experience working with government entities (see below)
- 30 years of public relations, special event, promotions and sponsorship experience (see below)
- Native of Portland--long-standing participation in Portland Parks activities

C. List work or volunteer experience that would add to your expertise for this Board/Commission

Dates (from/to)	Employer or Volunteer Activity	Responsibilities
2000-present	Coates Kokes Advertising/PR Agency	Public Relations Director--manage PR, promotions, sponsorship, special events for the agency. Clients have included the City of Portland, Metro, State of Oregon, and numerous energy efficiency, sustainable and green efforts.
1993-1999	Cole & Weber Advertising	Public Relations Director--duties similar to above.
1982-1990	Bowler & Assoc. Public Relations	Vice President--duties similar to above.
1980-1982	U.S. Congressman Les AuCoin	Assistant Press Secretary--wrote speeches, news releases, newsletters, arranged media interviews; followed arts legislation.

List your experience working on diverse teams or committees:

--Recently completed second term (eight years) on the governor-appointed TriMet Board. Required ability to work with other board members on many issues including funding, policy, safety and capital projects, as well as taking diverse public input during public hearings.

--Served for three years on the Downtown Marketing Committee to promote downtown as a destination for shopping, dining and family activities. Committee included businesses, non-profits and government representatives all with the goal of making downtown an attractive choice for Portlanders to consider for entertainment.

--Currently serving as vice president and have been president and a board member for six years of the Cleveland High School Foundation, requiring fundraising, promotion and support for this diverse Portland public school.

--Held same position (president and board member) of the Duniway Elementary School Foundation for three years.

Describe your understanding of the services the City of Portland provides:

The City of Portland provides a host of services to residents to keep Portland safe, vital, livable and running. Whether offering activities for youth in the summer at dozens of park venues or making the roads free of snow, leaves and potholes, the City has an enormous challenge to balance satisfying such wildly diverse needs with limited resources. Essential services such as police, fire, water, sewer and transportation deserve the utmost priority but are weighed against less defined but crucial services such as the arts, parks and encouraging sustainability. I'd enjoy the chance to participate in the conversation about Portland Parks and their future.

1st Choice:

Name of Board/Commission/Committee: Portland Parks Board

A. Reasons for wanting to serve on this group:

Thank you for the opportunity to introduce my aspirations of serving on the Portland Parks Board. I enjoy the active and passive recreational opportunities offered by the Portland's metro area along with the broader context of the outdoor public facilities and services offered by our region and the State. Engaging with likeminded members of the city's sustainability brain-trust who foster a strong voice and sense of place in Portland's citizens, it would be an honor to serve the Parks Board shaping our City's green identity and its future - restoring public health and maintaining wellbeing for all people naturally, safely and ethically.

Native of Bogota, Colombia, I am fascinated by the interface of the public open space in the urban environment - it's what I surround myself with each day and what drew me to Portland, fifteen years ago. Since then, I've been a part of the Landscape Architecture and Urban Planning and Design professional community in association of two professional landscape organizations. Currently, I serve as a Studio Director of Atelier Dreiseitl, a company that shares my enthusiasm for ecological urbanism and a collaborative approach with a local community. While I personally have been involved with a variety of planning and design efforts for regional parks and open space projects, Atelier Dreiseitl has been involved with the design of Tanner Springs Park and is in the process of partnering with METRO at Oregon Zoo with their Master Planning endeavor. Through the years, assembling world-class planning and design teams to respond to the needs of the community, my experience in the profession has enhanced my curiosity and awareness, while also galvanizing my interest in urban policy, public involvement as well as local and regional issues of central interest to the Parks Board.

As a citizen, parent and an active Landscape Architect-practitioner, I understand the value of the City's commitment to the Parks Board whose mission is to ensure that Portland remains a global leader in park and recreation issues providing citizens and visitors with quality of life while respecting and enhancing our shared environment.

B. List skills or knowledge that would be relevant to this Board/Commission:

A registered landscape architect with more than 20 years of experience, I have enjoyed a dynamic career leading design and management for a wide range of urban design and planning and landscape architecture projects. I have knowledge of the operational, design, management, and construction trends of the landscape architecture industry in the region and have been responsible for conceptual site design, development of presentation drawings, detailing, cost estimating, scheduling, production of construction documents, and close monitoring of the construction process to ensure the end result is true to the original design intent serving interests of the community.

In addition to my work across the US and Asia, I have remained grounded in Oregon by providing community design services to a number of small and rural communities throughout the state and have been an active member of the ASLA Oregon, most recently serving as Vice President. I am excited about the prospect of serving with the Portland Parks Board continuing to strengthen its ties with the community, the Portland Parks Foundation, METRO, and to ensure that all neighborhoods have access to parks and green spaces.

List your experience working on diverse teams or committees:

As the Studio Director of Atelier Dreiseitl and a registered landscape architect with more than 20 years of experience I enjoy collaborating with fellow professionals creating spaces that evoke an association with nature and provide stewardship of land. A diverse span of award-winning and LEED projects in my professional portfolio seek to foster a deeper understanding and appreciation of the art as well as social, historical, and cultural values in the context of landscape architecture. These include Portland's Ankeny Plaza - Waterfront Park & Saturday Market Redevelopment, South Waterfront Park, Holly Farm Park and Clatsop Butte Park.

I especially enjoy mentoring young professionals and offer my time and design talent to guide ideas, technological inventions, and dominant stylistic trends in Landscape Architecture and Planning of contemporary public open spaces in North America.

Describe your understanding of the services the City of Portland provides:

As a taxpayer and a Landscape Architect I respect the City of Portland's comprehensive public services including many recreational summer activities enjoyed by my daughter during the last fifteen years. My interest in joining the Portland Parks Board is in advancing the landscape architecture profession locally and globally while focusing on urban design, architecture, ecological urbanism through advocacy and education and promoting our profession during challenging economic times. Specifically, I embrace the green building practices demonstrating that sustainability and design can successfully co-exist maintaining and enhancing Portland's historical and architectural heritage.

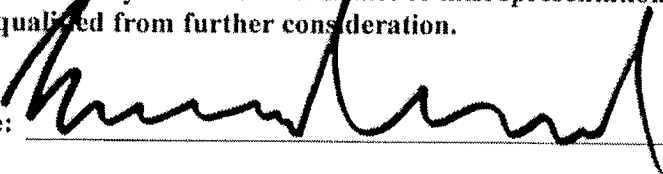

I understand the value of the City's commitment to the Parks Board whose mission is to ensure that the vision and recommendations of Parks 2020 Vision are at the forefront of discussions about park and recreation issues, and trends over time and in all areas of the city.

Board's advocacy for parks on a city and regional basis to ensure that parks, natural areas, open spaces and recreation facilities are advanced in planning and design coincides with my professional passion. I have been exposed first hand to the Parks Board approach offering a forum for public discussion and decision-making about park issues, bringing a citywide and long-term perspective to neighborhood-based issues.

I was the Principal in Charge of the first public park sponsored by the Portland Parks Foundation at the Holly Farm Park. I was responsible for coordinating fundraising efforts with the PPF Executive Director and implementing the design according to the original intent. The Holly Farm Park is a perfect example of the PPF's vision of creating parks expansion fund to ensure that all neighborhoods have access to parks and green spaces, and to provide financial aid to low-income youth in the face of shrinking public funding.

Mauricio Villarreal, ASLA

Director of Design and Management, Landscape Architect

Mauricio Villarreal is a Landscape Architect and Studio Director of Atelier Dreiseitl in the US. With over 20 years of experience partnering with public and private organizations worldwide, he has cultivated a dynamic lead design and management career focused on a wide range of park and open space, urban design and planning projects. Mauricio's projects demonstrate his commitment to design excellence, the preservation of sensitive environmental areas, and stewardship of the natural landscape. Employing an integrated sustainable approach in his work, Mauricio recognizes the interrelationship of environmental, economic and cultural issues and their impact on place-making. He is committed to the design and implementation of vital spaces that reflect the needs of the people they serve and the context of their environment.

Mauricio has extensive knowledge of the operational, design, management, and construction trends of the landscape architecture industry in the region. His responsibilities include conceptual site design, development of presentation drawings, detailing, cost estimating, scheduling, production of construction documents, and close monitoring of the construction process to ensure the end result is true to the original design intent.

A. Reasons for wanting to serve on this group:

I have an avid interest in parks with a particular focus the role that parks play in protecting urban natural resources and providing access to nature. I have worked with Portland Parks and Recreation in a variety of capacities over the past 15 years including helping to develop the South Waterfront Greenway Plan, serving on the Portland Parks Dog Advisory Committee, working with a coalition of organizations to bring Ross Island into the Portland Park System and leading a multitude of field trips at properties owned by Portland Parks. I am interested in serving on the Parks Board because I would like to help continue to build a world class Parks and Natural Area System that is equitable, diverse and ecologically and economically sustainable. Specifically, I believe that I could play a positive role in the following areas:

- Building greater collaboration relationships with the community: While Portland Parks already has a variety of strong collaborative relationships, I view this as an undeveloped resource. I would work to help Parks develop strategies to develop more constructive and productive collaborative relationships with the community. As a longtime staffer on an environmental non-profit, I believe I could provide insight into how to maximize the benefits of relationships with these types of organization.
- Advocating for Improved Funding: Portland Parks remains notoriously under funded. Having served on a variety of Portland Park Committees, I believe significantly more could be done to leverage outside funding sources to support projects. I am also very familiar with the City of Portland budget process having served on budget committees for BES and the Planning Bureau.
- Integration with other City Bureaus: I served on a variety of committees for Parks, BES, Planning and PDC and believe that significant improvement could be made in the communication and collaboration between these agencies. As a member of the Parks Board, I would work to promote this objective.
- Expanding environmental education opportunities: Conversations with Park Staff over the past couple of years indicates that the future of environmental education within Parks remains uncertain. I believe that stewardship is a critical component of the Park's program and needs to be expanded rather than reduced. I would bring a variety of low cost, collaborative ideas of how to increase environmental programming in Portland Parks.
- Equity Issues: I am very interested in the distribution of parks and natural areas throughout the city. I would add a strong voice to ensure equitable distribution of park amenities.
- Connection to regional system: I have worked extensively on regional parks and natural area initiatives (1995 Greenspace Bond Measure, 2006 Greenspace Bond Measure, Connecting Green Alliance, etc.). I would try to bring a regional context and understanding to how the Portland Park System fits into the broader regional context.

B. List skills or knowledge that would be relevant to this Board/Commission:

- Extensive knowledge of various Portland and Regional park and natural resource plans (Parks 20/20, Portland Watershed Health Action Plan, Metro Nature in Neighborhoods Program, River Renaissance, etc.)
- Extensive knowledge of city committee structure, budgeting processes, decision-making processes developed over 15 years of active participation
- Management Skills developed directing Audubon's conservation program. Responsibilities include overseeing a budget of \$300,000, supervising 5 staff and 100+ volunteers, developing Audubon's conservation policy initiatives, and overseeing Audubon's wildlife hospital which treats 3000 animals and responds to 15,000 phone calls each year.
- Ability to work well with the general public developed over 15-years addressing urban wildlife issues.
- Extensive experience working with the media (I have participated in more than 700 media stories during my time at Portland Audubon.
- Strong background in biology, ecology and natural history with a particular focus on urban ecosystems.
- Strong background in environmental education including years of leading natural history field trips and developing natural history events (Sauvie Island Raptor Road Trip, Peregrine Watch, Oaks Bottom Migratory Bird Day)

- Extensive knowledge of urban wildlife and wildlife management issues including founding Audubon's "Living with urban Wildlife" Program which is called upon frequently to help address wildlife issues in Portland Parks.
- Knowledge of natural resource law (I have a JD from Lewis and Clark Law School and will take the bar next winter. I will be teaching a course on "Legal Ecology—Protecting Natural Resources in Urban Ecosystems" this summer at Lewis and Clark Law School.

List your experience working on diverse teams or committees:

As Director of the Conservation Program at the Audubon Society of Portland I oversee a program that includes supervising 5 staff and more than 100 volunteers. This program responds to more than 15,000 public requests each year. I am very used to working boards, fellow program managers, program staff, volunteers, membership and the general public. I view my job at Audubon as connecting all of these elements to one another and ensuring that they work effectively toward a common objective.

In addition I have served on dozens of public committees and several boards. As a conservation advocate I am experienced at sitting at the table with interests that diverge from my own.

Describe your understanding of the services the City of Portland provides:

The City of Portland is responsible for providing basic services (police, fire, transportation, parks and natural areas, water, planning, grey and green infrastructure, etc.) However, I believe that a city must go further and

work to ensure that resources are distributed in a fair and equitable manner, that all citizens have a real voice in government, that our communities develop in a manner that is ecologically sustainable, healthy and integrated with the broader landscape. Portland has accomplished significant achievements in this broader context. I hope to further these objectives through participation on the Parks Board.

Bob Sallinger Biography from Portland Audubon Society Website (4-21-08)

Bob Sallinger, Conservation Director, has worked for Audubon since 1992 and previously served as the Society's Wildlife Care Center Director and Urban Conservation Director. His current responsibilities include managing the Audubon Statewide Important Bird Area in Oregon, recovery of imperiled species, and promoting wildlife conservation in the Portland Metropolitan Region. He has a particular interest in anthropogenic impacts on wildlife and promoting wildlife stewardship in urban ecosystems. His work in this area is informed by his experience overseeing the rehabilitation of more than 40,000 injured wild animals and responding to more than 200,000 wildlife related phone calls. In 2001, Bob developed Audubon's "Living with urban Wildlife" program to proactively promote wildlife stewardship on the urban landscape. A highlight of Bob's career with Audubon has been his work managing Audubon's Peregrine Project which has combined educational outreach, management, captive rearing and release, and citizen science to promote peregrine falcon recover in the Portland Metropolitan Region. Today Portland area peregrine eyries comprise 5% of the known peregrine nesting population in Oregon and the Audubon Program has been recognized with awards for the US Fish and Wildlife Service and the Oregon Chapter of the Wildlife Society. Bob's passion for conservation was developed early exploring the woods of Massachusetts and later on solo hikes from Mexico to Canada on the Pacific Crest Trail and from Canada to New Mexico on the Continental Divide. Bob has a B.A. in Biology from Reed College and a J.D. from Lewis and Clark Law School. He currently serves on the Board of Directors for the Coalition for a Livable Future and the East Multnomah County Soil and Water Conservation District. He lives in Northeast Portland with his wife Elisabeth Neely, two children, a dog and a couple of chickens

List education, including degree(s) earned:

Bachelor's degree in Political Science
Master's degree in Public Health

1st Choice:Name of Board/Commission/Committee: Portland Parks Board**A. Reasons for wanting to serve on this group:**

I grew up using Portland Parks – from Sports Fitness Camp to Lifeguard Training. Now I work out at a community center. My son also takes swimming lessons through Portland Parks. I have worked in partnership with Parks & Recreation to encourage youth and adults to become more involved with our beautiful urban parks. I am very interested in seeing how Portland Parks can serve a critical role in encouraging physical fitness and environmental stewardship among people of color and new immigrants.

B. List skills or knowledge that would be relevant to this Board/Commission:

I have a background in community health and community organizing. I understand the connection of the services Parks & Recreation provides to the overall health and wellbeing of our community. Physical fitness is a key component of that, as well as important social networks and a sense of community.

C. List work or volunteer experience that would add to your expertise for this Board/Commission

Dates (from/to)	Employer or Volunteer Activity	Responsibilities
1/2000 – present	Multnomah County Health	Foster community engagement in planning and implementing programs to address health inequities
2/04 – present	African American Outdoor Association	Coordinate opportunities for African Americans to improve their health through outdoor activities in the Portland metropolitan area

List your experience working on diverse teams or committees:

I was involved in the team that planned the African American Women's Mental Health Symposium; I have served on advisory committees for the African American Health Coalition. I am currently involved in the Young Environmental Professionals of Color. I also currently co-chair the Health Department's Diversity and Quality Team.

Describe your understanding of the services the City of Portland provides:

The city provides comprehensive services that make Portland one of the most livable cities in the United States. Those services include Parks and Recreation, Neighborhood Involvement, Transportation, Environmental Services, and others.
