

Security in Portland

in some parts of Portland security is a huge problem

for example in my area street graffiti is a very large problem

drug dealers and pimps and johns have an easy time

in many "safe" and "family friendly" areas such as Saturday Market and the Rose Garden and Quarter are full of drug addicts

Some people say Portland is safe but compared to Seattle crime rate is almost exactly the same but Seattle has more people. This is a bad sign if we don't clean up the streets its only going to get worse

My ideas:

have better night patrol so citizens don't have to rely on themselves

better control of pimps

get rid of drugs by shelters and free rehab

stronger laws against graffiti

Thank you

Any questions?
