Subject: Address the City Council June 2, 2010
To: susan.parsons@portlandoregon.com

Susan, I would like to address the City Council of Portland Oregon about Billboards. After many years of work we have identified and entered all billboards in to a GPS system locating every single billboard sign. There are more than 427 sign that have no record of being built including whether or not the sign is safe and or meets any kind of building and safety code. Information we have collected shows more than 100 of these should have been removed many years ago. We have letters from the City instructing the sign company's to remove the signs after either a compliant or under agreements made by the City of Portland. We have copies of all of these letters and many more. This information was not obtained from the City because we have a letter informing us the City of Portland destroying 23,000 document having to do with billboards. We would like to make a suggestion for a way to turn this into a income source of more than \$10,000,000 dollars over the coures of the life time of these signs. Susan let me know if I need to shorten this to a few words. I'm not sure how but if you have suggestions let me know. Thank you for all your help so far. Please let me know you received this message. Thanks Chris Carlile 503-579-8186.
