Greetings, and I would like to note that the return of good wet weather and your laudable prevention of overflow into the Willamette, has not yet restored the quality of everyday health and life here. May ^{we} be the first city to actually dredge, cleanly-overflow, and clean up the river to pristine salmon quality. The heavy metals, strychnine, pathogens, diesel oil, psycho-active drugs, carrion, and other sprays from that decrepit airplane, ground vehicles and sometimes person-exudates for Library, the filled-can laboratory of MAX etc., will possibly still be in the infrastructure a century from now. [0:37]

Observing the poisoning of the city infrastructure and citizenry is not a welcome event: At rush hours along SE Morrison; gang vehicles spray excruciating pain-producing gases from their exhausts. Those current drugs are 'tailor-made' for opiates as the ~~██████████~~ _{cure} and that's the cheap cover. [0:59]

I observed the exact same all-male gang plane in Ashland; circling the bike path 4 hours to make it impossible to use from arsenic asphyxiation, like his circling of the Jefferson High School teen-filled football field for a day. [1:14]

I also am tired of the gang 'wearing my face' for their signature, particularly to youth infiltration; deprivation of freedom and free will; mitigation of decision making and the integrity of youth groups, and/or handing them over to crotch male chauvinists/predators sometimes appearing protection against the same. From that 10 y.o. kidnap Mexican service project in the 60s, to this moment; I am still continuously penalized (and atrociated) for their crimes. [1:40] *cheap legal contrivances/Frends and*

15 houses and 17 cars stolen, and a piece of forebrain at that original "Outside-In" ~~in~~ some cannibal-ritual of the 70s: been made a permanent idiot for this presentation; not to mention those associates in those stolen address books. [2:00]

That took valuable speaking time to protect myself here. The 'stiff' image has to do with their brain damaging. I am nothing like their poisons, and you sure would have gotten a finer, more Portlandist relate here, had there'd been more diligence about the cagings with the same gang around and in Portland, City Housing, and from that 'second shadow government' for a half century. [2:37]

The world used to be top-down as communications structured, now bottom-up (grass roots) due to the Internet. Indoctrinating drugged/other people to fail to perceive the discrepancies, is something in which Portland should vociferously be antagonist. Disclaim on this poison and the psycho-babble undifferentiated from the propaganda addend, refuse to have Portland Airports used for assault bases, use sensitive detection of poisoners on mass transit and interior air spaces, and remove those 'cat hollow' drugs/fixatives from MAX and the rest. [3:00]

This is a complaint against TriMet, the transportation company of the Greater Portland Area. I haven't had any 'luck' -- since the gambling moved in, even torture and poisoning complaints require substantial amounts of 'luck' -- with simple complaints, so I don't bother. I also do not have to use 'blocky' mental-box-imprinting language. I reserve that my language not be used for additional facades or 'cover', nor copied for facetious duplication for criminal e.g. kidnap with or without official hats, or commercial purposes, and I trust this reservation suffices to ensure thusly.

8/24/2011, at ap. 6:30 pm, I was accosted by a ticket agent on the IB Blue Line Max just after the PGE Park stop, asked for a ticket. When I produced a ticket, he then asked for the "Honored Citizen" I.D. for it, which I showed. He then asked where I got on the train. I noted I started the trip at Hall/Nimbus on the WES Line. He repeated several times, until he distinguished his need by noting it was this particular train, and I noted Beaverton TC. He then made a mugging gesture of looking at his watch, with a grimace. Although this particular is not in the scale of complaint elsewhere, please see the complaint filed with the Attorney General's Consumer Fraud site, about 'authorities deliberately assaulting visual artists' by mugging in a way to imprint their particular face on the subconsciousness of their target, routinely proceeded in this by the extensive use of brain damaging/paralyzing drugs before, much like those the gang is dosing Portlanders with currently using the interior air spaces on the Max and Tri-met for the drugging container. This generally indicates the gang which currently is poisoning Portland; grimaces, distorted sneers and evil smirks, all on the already-misshapen, and bile/liars-colored faces of this black-gangster gang. Any body noticing anything around downtown and food stores in Portland has noticed them. Suffice it to say that I am not impressed with their imprint-mugging brigade. Closer inspection reveals the bulky bossy demeanor and physiogomy of that hock-shop Marshall's-badge child-torture/imprint-induct group 'under color of authority', and a invariably poor quality duplicate of kidnappers etc. Hence, to avoid association with males who put on black clothing and persuade their victims to retreat to unprotected grounds for murder or rape, often using badges, of which I have witnessed directly, I am obligated to complain, even though the material of the incident warrants complaint anyway, to some not-significant degree; which is:

Early this year I took out the "Honored Citizen" card i.d. from Tri Met; a paper card with a signature and expiration date on it; requires several applications and submission papers from several places. The next day I was accosted and asked for a ticket and i.d. I had never seen any official from Tri-Met ask for a ticket before other than generally, but the coincidence didn't go unnoticed. On 8/22/2011 c.e. I exchanged the "Honored Citizen" I.D. card for the replacement card, which has a photo on it. The next time I got onto Tri-Met, on the Hillsboro MAX, I rode to Hall/Nimbus and back on the same ticket, and was again asked to display the ticket and I.D. Twice is not a coincidence; it's an harassment proof. Just so you don't take it as spurious, the complaint is "snitch-jacketing", as well as harassment for requiring to spray my new I.D. card with 'eau d'inspecto' each time. 'Snitch-jacketing' means that via the card as the object of distraction, various things are assumed to go along with it, among which are identification to inspectors throughout Tri-Met everytime I go on a Tri-Met car, even without routine means of ascertaining that I did in fact, get on a Tri-Met car. I don't have to worry about being inspected again, but there is a little matter of privacy of life-style and in unenumerated ways defined Constitutionally. I realize that the 'snitch-jacket' isn't just to inform thugs in the next transfer cell in a jail/prison, that the person jacketed 'snitched' which 'somehow' the new cell thugs find out without otherwise transferring the data from cell to cell; but regardless, this is a critical point of contention about how much persons taking a poverty program have to sell their privacy to strange men with proven hostilities and the which of it will wind up used in 'color of authority' rapes and murders, by some more of those 'bizarre' means as not-noted specifically just previously (and 'you' are just as 'confusing', perhaps, but on gang standards), as well as more obvious things. I also noticed at the program at "Northwest Documentaries" when I asked if the documentary maker was

getting propaganda from the DEA, as I pointed out the identity between the statement that gay men use 'meth' (part of documentary subject) because it causes inability to think and releases inhibitions simultaneously, and the statement that the Mafia was defeated because of poor communication skills and the over-heated atmosphere of crack cocaine transactions: some male, who made himself so I, for one, could actually not 'see' him at the back of the room, started at the mention of govt. propaganda, kicked over his chair making a 'racket' and left. I see he was establishing his 'cover' as an FBI Agent infiltrating some environmental group, which cover would be useful repeating or covering ex post facto the kidnap I witnessed this dude, possibly though with some identification problems caused by 30 years aging in the interim, do while paralysing household members, during the kidnap of those females, who, incidentally, were never heard from again, and presumed murdered. Not your Portland pimp black-men/other prostitution houses, routinely average 'compelling prostitution' of people but close, and it was noticed that they never returned. This apparently is the week during which this gang occupying Portland, is bragging and/or covering their now-outdated kidnaps etc., perhaps indicting your petty harassments into their scheme or kicks or validation. I assume the gang is using their rapists and murderers etc. to discourage the environmental movement and even such non-pertinent but well-liked things like the MAX. They assaulted Ashland when it got over 20,000 in population and routinely assault Portland with arsenic sprayed from planes and about 50 other poisons and brain damaging agents, for a few years like at present, while using hock-shop badges and the cover constructs for worse. The bulldogface-blackmen are "Portland only" apparently, perhaps gangsters from Seattle using the Portland 'liberality' as the tomfool face; "you will think this is a racial issue". I plainly observed them in Ashland for two years, and they removed to Portland 3 months before I removed back to Portland; they use the exact same cars, same airplanes; instead of the hock-shop Marshall's Badge 'color of authority' child-torturer-induction male, they use the black bulldog-shaped poison-spraying blackmen gang; probably makes the former look 'white' -- a "special for you Portland" legalism-surprise tomfool.

At any rate, the complaint has several sections, and you can address any or all of them, starting with the most obvious one of checking any new i.d. from Tri-met the next Tri-met trip. How the @#\$\$ do they know it's the initial trip with the I.D. in the first place? Not a humorous question for a tortured person against the re-established torturers and the gang sycophants/other; child torturer-inductor/other are known to exert bizarre powers over their victims for some time, including ascertaining information for stalking and whereabouts, and this applies to this circumstance. I don't have to 'prove it', and not because hock-shop badges never have to 'prove' anything, not even their own contrivance unless they desire the facade to match propaganda. You have to prove it for the 'coincidence'. Considering that this repeats in exact word for word events, that indicate enslavements temporary or permanent and/or brain damaging or mental constriction preparatory thereto, from that 'round decades ago or so, that makes 4 identical events dealing with i.d.; each next trip after issuance. I will point out that this is not the most greivous malfeasance lately. On 9/22 I went for the DMV ODL driver's test, having to re-do a license after my license was disallowed by the 'new' govt. for use of a nickname, despite the 'grandfather clauses' which support it entirely. At the end of the test, they took a photo two times despite having a photo already on file from the written test at the downtown DMV office, stating their camera was 'confused'. They refused both photos, requiring that 'the hair be re-done' to match some pre-set notion of the photo, to the specifications of the photo prepared there in advance apparently, and when the photo was produced on the temp. license, it indeed had an eyebrow painted on two-three inches higher than the other, impossible and ridiculous; an insult and covers that this is another usurpation of my identity to associates and social personal events, this time without even the phony black uniform, but directly; belittling being the standard for the govt. 'proofs' of this probably. Was that the dude at the NB Morrison Bridge I5 ramp 4 hours later, where the gang routinely brag about their henchmen leaving to their hideout, presumably, with the names of associates to hoodwink or kidnap enclosed? Also resembles, allowing for 30 years aging, that kidnapper noted with the all-black uniform and mental paralysis of the victims/other using the preparations from previous kidnap-drugging

torture-inductions, currently dealt to the population here en masse via the interior air poisonings. Moved into official quarters, one could note; Re-doing the preps for that kidnap -- also noted as 'burying the confession with the victim -- and/or preparing for the next. That house of kidnap was in my name, incidentally, one of those 17 stolen houses, and they are still insulting it for proof as one of their pimp's houses. They probably needn't bother; nobody left to record it anyway, as if a court existed to equitize it ever. Being compelled to participate in this MAX surprise-derogation is another 'proof by proving ex post facto low status'. Sound not pertinent? The gang, when this dude at the Northwest Documentaries 'stormed' (remember that 'Storm' girl killed in traffic pursuit by the Portland Police?) out, started spamming my email with porn that jammed the computer for display, with those kidnapping/witnesses/victims/other on display or the gnags' lookalikes with extortion/blackmail dangers expressed. The Multnomah County Sheriff for the downtown library, suddenly took an interest in my laptop, spying on it from the only possible contortion place to do so, despite that the material displayed was arranged with jamming for the purpose, and was legal and not contrary to library policy in any possible case. Uncomfortable covers those photos uncomfortable as victims on display. Then trying to cross the Morrison Bridge on the south walkway to avoid the gang-poisoned sidewalk on the northside, like dozens of people do regularly, suddenly a guard taking my photo from the Bridge engineer's office. Sounds like the snitch jacket is used by every govt. office possible; and this is the gangs' brag-about-kidnap week. To start, why is the govt. using a snitch jacket button installed with torturing 10 y.o. boys and reinforced by kidnapping teen girls? Not much defense against this, so it probably goes the way of the complaint about the Mexico 10 y.o. kidnap; "just throw as much sh#\$ as possible and nobody will service the complaint" "Works every time". One should still crosscheck those 'porn' -- which it isn't -- faces with those kidnap victims etc., but the result of this note and the sycophant displayed, it'll soon be much too 'busy' to be able to write it even. You desire to be a section of this machine? And incidentally, the ticket was about 15 minutes over for boarding. MAX tickets often require purchase 15 minutes in advance of initial boarding because the schedules aren't printed for much of the day, so allowing a 15 minute leeway is standard. TriMet bus drivers insist on it. However, I note that the inspector didn't actually do anything other than dismiss it. Leaving the train at the next (Library) stop, another gang-harassment archetype, the 'scrawny reed-stick too-tall male" in another TriMet uniform appeared and tried to 'bear down' on my location, apparently for intimidation only, and I don't appreciate that either, particularly the gnag archetype. How many scrawny overly tall males in the last 90 days? At least 50 in various contexts and situation, not as bad as that obscenely-obese boxy black men brigade deliberately occupying every possible routine Portland situation and grimacing etc. to make their imprint and generally recollection of Portland nightmareish to say the least; but not appreciated nonetheless. I realize that because the Portland Streetcar is still under the aegis of Vera Katz, they can't @#\$% around with it much, and have to settle for just poisoning the infrastructure so every ride thereon is a venture/junket into some "cat's hollow" thereafter; and consequently are taking it out on the Tri-Met MAX 'aegis' which is not contractual to Portland courtesies or cleanliness; but that's not my business to defend it. I will also express an opinion, that the shooting of that young female with the bean bag months ago, served specifically to give the current MAX Police goldbrick rights to ignore the destruction of the chemical integrity or cleanliness in poison terms currently. This Keystone Kops stuff goes along with it. I saw the same gang hit Ashland for several years, same airplanes without i.d. spraying arsenic, diseases carcinogens etc., same male in the same annoying, previously connotated, cars spraying deadly chemicals which will not remove within decades from the town's streets etc., so I have no doubt about the 'surprise assignment' of 'surprise police' at this time here.

This \$175 ticket, when no one in his right mind would go onto that sh\$t-filled can of the MAX now, and not for years:

1) a blinder, that is popular with the nouveau government. However, since that Portland Police arrested that male charged with 'impersonating an officer' in a Multnomah County Sheriff's car on Powell, some time ago, all that dude's flatheaded or meatheaded Guido-type relatives have caused more problems than I care to deal with, which is none. The first thing was a blindsiding ticket in Myrtle Point, even to the liar-bile colors. Nobody in Myrtle Point gets up at 4:30 am when I cautiously go from Gold Beach to Medford, never speeding through towns; but this blindsiding stop, as any trucker knows about as a common routine fact -- this brainwashing and programming consistently makes every routine fact against corrupt/gang Police 'distorted' -- is that same sneaking projection used at the Max-stop at 99th for this ticket. The point, was a ticket so expensive I had to give up my rental in Coos Bay; approximately the 7 or 8th time authorities, particularly with blindsided and satanic, have canceled my home or rental; stealing some 17 of them so far: In fact, I estimate the cost of a judge or Sheriff in this region is about \$50,000 a year, their approx. value for decades, as since they have stolen these things regularly, I have had no other trouble. Apparently I failed to make a shake-down 'payment' and they started again, or perhaps it was just that I had to correct my i.d. to lose the nickname, and the Nazis -- literally - and other bastards started their same old same old. Of course I had studiously predicted to the Govs' advocacy that with all that public work with juveniles around, there wasn't a chance that they would NOT be preferring 'morals charges' and had laws made in Washington State particularly for this, having no other construction that would survive a bar argument much less a regular court. I also had to modify my i.d. to match the federale govt., though the previous nickname on it was 'grandfathered in' from Florida, recently; and it's 'living proof' that the routine version causes that gang, in official hats and unofficial hats, to be 'like pigs on a corpse'; they didn't even pause three lousy weeks before starting their drugging-contrivance routine. They even sent niggard bastards, apparently, of Roy Cohn as in McCarthy of "McCarthyism" to cuckold my meaningful alternative; just like the King of the Jail, the King of Cuckolds, entire regions at once. The platform cops keep bad company with about 10 other stalking, drugging, ordering, evil gangs around town in their pique of frenzy currently. Much to my regret, this region presently has no authority to issue these tickets, because of the extensive drugging of their victims by which they cause their 'incidents'. I regret this because of precluding a court argument; it more or less leaves the court with the choice of being ignorant of the extensive poisoning in Portland for the last 4 years, including clearly identifiable poisons like strychnine and arsenic sprayed from airplanes and cars, and the exact same all-male gang with exactly the same airplanes and poisoning cars in Ashland previously -- I had to observe them and lose my health there as well, and they preceded my return to Portland by about three weeks; that gun-toting Sheriff and his drugs there forced the move at

that time, though there was no house to steal in the process and no \$50,000 value thereof, no shake-down cash; and this niggard bastard, along with the chuckie-aron gang, will force the move from here, apparently identically to prove 'americans are idiots' for never noticing. Not much chance of recovering those brain damaged ounces of brain, and there is not much chance I care to multiply this with 'adding insult to injury' and going to anywhere in this region e.g. the downtown courts, where, for all I know, the Sheriff at Stevenso's guido-relative will have something to say and prove the ticket was for his causation, which, incidentally, I truly consider correct with regional gang variations perhaps e.g. "Yo mudder's vaheena" and I quote, distorting the pronunciation as per the Willamette Week preps for the obvious backwater chicaneries/frames and obvious hot dog Sheriffs. This isn't as obvious, except for anybody who observes this group. I also, do not permit unknown men to 'hide in broad daylight' while drugged people provide excuses, like peddling a bike momentarily, to his exactness; straight out of a Statnism file "How to hide in broad daylight"; I assume they began this during that kidnap in Mexico at 10 y.o. and the subsequent torture-induction presumed, being unconscious for 24 hours, as no other point of start can be assigned, and no break from this occurs since. They pass it along like described 'buttons installed from brainwashing and torture' or sometimes 'Monarch Programming triggers'. When this impersonating-Sheriff dude, was noted; I was nearby and assumed the Sheriff had been the one harassing my travels around town for decades, flashing his lights and forcing pull-overs without any intention of issuing a ticket, like it was the 'favor' of the bully's tortures ' Hey, mon now we budedies again, and I can@#\$5 your..." e.g. sign those left-over international lines of your=our credit or computerize your Bank of America account and so forth. I also noted there was no chance they are going to ignore the mention, and would send damage control agents, bullying around twice as much. The brain damage is so bad I cannot write this in neater paragraphs, but I have no obligation other than to make sure that this cash is noted herein as no more than the shake-down the Natives paid to those blackboys of this same gang elsewhere to just plain pay it and not be poisoned. Other fascist groups 'at least provided real protection' rather than shake-down for rent pocket cash just to throw it away, synchronized with the gang' current pique-ing sadism/subordinating torture/inductions and re-inductions. Take it, and take MAX with you please. Those officials, unable to get Vera Katza, turned the Max into a 'cat's hollow', and now are polishing it with strychnine traces, and then declaring it 'clean;', like they just spent a few decades of my life to lie about their efficiency of their cleaning agents. It's still a sh\$t-filled can, and its sole purpose, besides torturing the population to subordination to dogs of slaves of gangsters, and, of course, to favor their dog-class -- 'ruling class' to the population et. al. -- of rapists and 'corner 10 y.o.; boys in the bathroom' 'spokesmen', is to ensure excuse devices like this rat-maze 'ticket'. "So easy" to peddle along; that's their drugs talking; and so is this, for that matter. I'm honest about it; and also I would not waste one split second of time dealing with these "Leo Frank incident" perpetrators; and if I bothered to write a criticism like

this to a Court -- extremely unlikely I would digress from interest or specialty -- it would be concise and directed to one issue at a time if possible. Never did anything like that before; not really safe; a million miles without an incident, about 10% in Oregon, never spoke to an official until the Agenda came along. But then, I never sped through Myrtle Point before the hypnotism of blindsiding, and even that for just a few feet past the sign and the 'cop' there, if they bothered with certification. I will not endanger myself e.g. going there listening to Sheriff's "yo mudder's vaheena" loudly, while the King of the Jail tries to make you the public call the disease he is planning on releasing himself 'merce'; more or less what this deal is about, except I could bet my hat it involves that rotund blackmen gang/group and their machined greased English to a drugged town thereby assured it's mine. It isn't. You think perhaps that Sheriff didn't scream that repeatedly, trying to make it appear like some trivialization of the Spokane Police murders of union activists in decades past, and that like they trivialize my complaints: His lookalikes, presumably of actual connection, stole that first car while I was still in High School, destroyed my peer group, terrorized any bypassers, and continued to stalk and scream satanic curses -- the last one was 'the Police are useless' and she sure made that correct, along with 'morals charges' for some convenient and patently-phony excuse; the one before that involved diseases which that black gang enforced by giving back the wrong bag of blood at a plasma center causing hepatitis c that took some 35 years to cure -- along with Nazi-propaganda, literally, about 'anti-Communism' for their license to main and apparently kill occasionally; that male staring at one and yelling about 'Police killed my son' at the Alberta Rose Theatre in my last ever trip to "Albina" ghetto, was 'looking for another victim' -- I am not 'americans are idiots' and have seen it before, implying he arranged the Police killing and collected cash for it, and is looking for another victim -- and that was within the last few months. Yelling an obscenity is a better attempt to make people ignore deprecation, than the Portland Tri-met cops with their rent-match fine(s) that just causes people to notice them more. Don't forget the penalty to my memory to have to have it ingrained with extremely vicious men with pasts. After spraying the town into the loss of their brain function constructed by themselves, they then are throwing sh\$t at the town with 'macho touch cops' and their 'necessarily brutal' fines/other; standard gang deals: expect the rest of the gang to switch to their prior drugs of harassments like the one that turns people to have 'skin like the bark of a tree'; it's been said 'coincidence' or 'copy-cat', but there is only so many decades of this one has to note to conjecture and figure otherwise. I am not trying to recruit anybody to my beliefs, reality, or anything else: It's just to make sure my 'signature' isn't used for additional lure of those 10 y.o. boys/other into those bathrooms, nor the 'exchanged shine' for the macho, used to boost chicanery courts. Listening to those Washington State Sheriffs bluntly/blindly/lynch-mob accept crapola on their circuit, discredits them. It's my rent money. It's exorbitant without an apology. The black men gang is trying to cover their facade of being a class above: "If they have cash, you can't"; I don't believe it, neither their sports cash, or the other, verifying only that they are apparently the

ones who just changed signature cards on that Bank of America account and still change my appearance-of-i.d. to that of some 'street niggard bastard' inextricably involved continuously with drugged machination and gangster cops. It was 'funnier' when they used drugs to fix contrivances and accusations about drugs, but that's my only routine comment about it. So: you wound up a toy government and are playing the 'inflated money' section of some recording of time past, enforced with drugs to make 'belief' in this, to jack up the 'fines' and more directly shake-down cash, and massacring the victims with their insult as well. Not worried about losing the facade of the cash? My payoff is easy to cover; who would listen or care? But the Pinkerton brought in to murder a few strikers etc. are these in reduced form, so far; it won't be: you'll have to drug Portland slightly more to convince this population or disassociate them sufficiently for the purpose. They apparently drugged Ashland enough to convince some at least that this stalking misogynist hate-monger disturbing all female programs in Ashland, like the city Ballet, and even the Shakespeare Festival, had something to do with the person writing this. I produced an item by item rundown, noting his 'African ideal sloped forehead' and my broad forehead; and estimating how much drugs they needed to pass off they can't notice the difference. The tack is different in Portland but it's the same batch of strychnine and the same isolating, enslaving point; here the assigned rotund black men are large enough to be intimidating with their physical threats and ridiculous grins. Will they bother with phony contrivances as 'warnings'? Not likely, but reacting to insult is a joke; they cause every incident, this one included, and programming is always that way. They prefer 10 y.o. to torture; the neuterphysiology of the brain damage is just right for the disassociation to program for their follow-up with Tri-met sh\$t-filled cans and extorsive cops. At any rate, I am clear that this is Portland, not the cesspool of California victims they came from -- I am not 'americans are idiots' -- and I do not have to accept the drugged 'grin' after the bullying of the 10 y.o. in every Portland city bathroom, but note that is all that's involved. Don't have to root for the cleaning products either; you want to take your town from the toilet this rotund terrorist-type black male gang threw it into, with the grin, or refuse the grin? I've paid more in Mafia territory just to drive; it's common. Interesting match; I pay about \$190 in rent, you got \$172. In Coos Bay, I got about \$350 in rent, they got about \$500. I wouldn't get on a MAX train with this gang around,, nor for 50 years after, for solid pay, much less to coincide with the ticket-patrol. Everybody knows the import of slavery of the Monarch/other programming as the common threat. They even put an uncharged 'attempted murder' charge on my record; and you can bet all that \$172 that no court reporter recorded it, no clerk set it down; some @\$% just put it on the computer, knowing that by the time you are sufficiently drugged you will neither be 'not lazy' enough to work on it, and otherwise suffering the particular intimidation inflicted. If I didn't have to notice the ticketing officers' of Tri-met's niggard bastard about three days before; 'the spitting image'; I don't have a good memory from the drugs in the air now in Portland from the gang, but 'not americans are idiots': This is the third official within half a year to do a genital display at gunpoint, and about 10

within the last 3 years. Considering that the complaint about the gang spraying their poison debris from cars on Se Morrison, the Police complaint gave the gang a target more particularly, and they sprayed 30-40 times as much for the subsequent 6 months. I assume the entire event was contrived to put my address at a private residence into the gangs public clutches without having to bother with cover anymore. If it wasn't for the bullet hole in the head, and the apparent State of Oregon injection point into the brain through the rear base to destroy the pituitary as an not-obvious torturous murder, I would probably be as fearful as the rest; but the gang can't find another assassin who isn't superstitious enough. Maybe that's why this shifts it away from the basic brag or advertisement about the efficiencies of 10 y.o. kidnap and torture-induction, to something that looks like two groups arguing; standard ploy. And if this is the same Pinkerton-type-hat/official that just ransacked California before using Ashland as an entry point for gnags into the state: I ALREADY COMPLAINED about California Sheriff's and their advance threats to the state here. They train everybody to waste their time in lies, and inflict this on others, and I am not wasting anybody else's here. Now that I have to pay attention to this 'disappearing stalker'; he's the niggard bastard of that gun-waving drugging-for-crime-construction Sheriff in Ashland, doing exactly the same thing with mostly the same men, arsenic spraying airplanes, poisoning gangsters with excruciating painful compliance drugs they have wrecked the entire town with; with the 'no-surprise' sudden chicanery-machinations, still on a starting scale with extorsive fines and pornographically-transparent excuses. The only difference is they used these rotund cloned blackboy blubbering-threats gangsters, used for Portland only at a guess. It could be that the Natives, more knowledgeable, just paid directly some \$1000s in shake-down cash to the blackboys there, and avoided poisoning their environs and homes. Looks like Portland has official back-up instead of pay-offs, or maybe the flesh is valuable and stolen loot is in abundance enough they need some bloodier cash like this to prove it's not bad/phony money. Nazis always did have a problem with a stable currency, changing/stealing bank accounts on computer now, and using an increasingly brutal Police for anybody following it. The real question is how this gun-waving pisant bully got my number in the first place that they both grabbed a badge or bought one from the hock-shop, like that hock-shop Marshall's badge juvenile-torturer I noted in one of those federal court suits, using the courts for a rubber-stamp on his bathtub-gin legal forms and fiat law he made the day before, who, incidentally, resembles quite a bit that second Tri-met cop. The gang hasn't sent anybody out to do actual work like patrol and extort the platforms, unless they had something to hide, so far; probably makes their victims confess instantly and convince a third party that the victim committed their crimes. The other side of that involves those 10 y.o. boys etc. cornered in the bathroom, covered by this machination and you/public thinking he cooperated because you/public don't notice the drugs they use now to cause their mind-control hypnotism; try this one; the drugs/other they use for that contagiously-nervous prod they use for excuses when assaulting a victim. It's more well-known and accepted as fact; the only

problem is that it involves black men and their propaganda of this gang, as the routine 'example'. Those Multnomah County Sheriffs appearing in more than 10 immediate proximate presumed-stalkings in the last 10 days, doesn't help the case, other than more of their machinations; perhaps jealous of the ridiculous poisoned-contrivances for 'morals charges' that passes for legal in Washington State, although at this point, conveniently undoubtedly for the gang, it's possible they have taken an interest in the porn spam, routinely used for 'morals charges' even if not bidden, that contains distinct information about this gang, particularly recent persons making threats with the uniformed men, including some of their kangaroo-court 'judges' and what they did with the females they pried out of their victims houses when they drugged the houses. and what they are covering up, in advance of their cover-up machinations like this one. They could have thrown that in as the excuse they assign to 'you'/anybody, to dismiss the complaint. I wrote this. Nobody in these circumstances could pass any test of vocation on it with those drugs everywhere in Portland and other gang territories, nor under the jurisdiction of machinating Police/Sheriffs, and I do not care if this is true and it invalidates pretensive legal systems. Note that 'call a spade a spade' is not herein and I am not a gambler. There is a small conflict between whether it's shake-down cash or the equivalent, or continuing harassment from this 'impersonating an officer' Mult. Co.sheriff's connected, gang. There is also the question of whether they covered or started the poisoning, years in advance, with 'Billy Beer' or whether the Washington State Sheriffs found a literal Nazi bastard (Goebbel, Nazi Propaganda Minister, with the spare tire around the back of the head, and apparently regionally, that liar-bile skin bias).

Neither is my interest, and anybody can figure this, with more data. [NOTE ADDED LATER: The 'liar-bile skin bias' refers to the pigments habitual lying imparts to the skin, and is not otherwise judgmental. Nobody is polite there, and I fail to work for them in translating them into polite terms. I am also excused from being labeled 'too politically correct' or a 'nazi propaganda victim'; noting that if using Nazi terms, in politically correct jargon, they have one 'gone' in all cases: The PCorrect consider it stiff-armed if not a cliché, and the Nazis consider it degenerate. If this is news to you -- about the writing being directed in form to a point -- than you are welcome. I could add that after sending this document to a traffic court along with a check, it could not longer be changed in any way e.g. to put it onto a larger page; as an obsolete system of line-end machine symbols, appeared on it; possibly to make the gang computer hijackers appear to be a Court with a 'back-door' computer capable of hacking something like that; or it could be that the standard text program doesn't work; however, it worked fine on the other document herein.]

Greetings, and I would like to note that the return of good wet weather to Portland has by no means restored the quality of everyday health and life here, for particular malfeasance. When one can fish a salmon out of the Willamette, I will declare it cured, and congrats without the rats. Excepting that the arsenic, strychnine, pesticides, heavy metals, intestinal, respiratory and other pathogens, heavy metals, diesel oil, psycho-active drugs, carrion presumably their own debris mixed with the drugs and other sprays from that decrepit airplane with the i.d. numbers painted over, and various junk or new vehicles and sometimes persons/clothing exudates for interior air spaces like City Hall or Library, schools, MAX (the filled-can laboratory), Tri-met etc will still be in the air, buildings, and scirocco a century from now, even if you stop it right this moment.

Observing the poisoning of the city infrastructure and citizenry is not a welcome event: At rush hours along SE Morrison 4:30 to 9 a.m., p.m. rush hours; cars and pick-up trucks spraying excruciating pain-producing gases from their exhausts to torture and attempt thereby to control the working class and any other too poor to avoid them by removing from major roads and second-hand debris. On Sunday particularly excruciatingly-painful chemicals from noon, and recently since posting the notice for this dissertation about them at city housing and known routes. Stealing 15 cars (and also 17 houses, most in Portland) enables them to easily determine my bike path, and they even stole two bikes capable of going faster than this loaner now in the last year. That also threatens and damages Police and Firemen, and directly bus drivers and garbage trucks operators, who visibly are stalked thereby. Classic covers; noisy cars visibly decrepit in case anybody notices they are also spraying poisons and so forth; and the goals are unknown but presumably routine fascist destruction fo working class possibilities and independence, or otherwise put. Those excruciatingly-painful current drugs with preservatives for timed release later to obfuscate particulars about the cars and otherwise, are 'tailor-made' and matched for opiates as the cure for the pain.

I observed the exact same all-male gang in removed from Ashland to Portland about three weeks before my return a year ago; same cars, poisons, males, airplane, Big Lie - in Ashland flipping the airplane off from the ground resulted in his circling the green path half the next day, making it impossible for anybody to use it from arsenic asphyxiation, like his circling of the Jefferson High School teen-filled football field for a day to give the kids an extra dose of arsenic; I watched it from the PSU library. The FAA or facsimile thereof only cared that the plane flew below legal limits, probably baiting you for the rest for the opening 'gambit', like protecting Portlandias. They also ran cover on the Internet about arsenic sprayed on fume-emitting blacktop to cancel the effects. DUPLIC A tamed or subsumed population supports and ignores them and you should not obey that assignment.

[IF TIME PERMITS < 2m. s.] I also am tired of the gang 'wearing my face' for their signature, particularly to youth infiltration; deprivation of freedom and free will; mitigation of decision making and the integrity of youth groups, and/or handing them

over to crotch male chauvinists/predators sometimes appearing protection against provocations from the same. From that 10 y.o. 24-hour kidnap from that Mexican service project in the 60s; I am still continuously penalized and atrociated for their crimes. For example; forced at 'new Ashland Sheriff' stakeout, gunpoint into City Housing, I will have to be 'faced down' by some rotund black -- they used Mexican-looking in Ashland, and previously Arab-looking stalkers at PSU in the 70s -- gangster later demanding I address him like I address this council. I lost a piece of forebrain at that new "Outside-In" when it was on Unitarian Church property -- they still stoutly deny it despite the sign on the wall there -- while I was still suffering malnutrition from that Mexican service project to make starved slaves as routine, in some cannibal ritual; he lost his medical license in Oregon according to the Advocacy, and all that happened is they shut down the Advocacy after noting it; It probably was from a room of 'doctors i.d.s for bomb-toting terrorists', literally. Not to mention the brain damage and 24-7 stalking and animal-training pain-compliance poisonings to a few hours ago at most. Like those apparently SOU-based Mexico kidnap-gangs, no city housing or other business, is permitted without 'arrangements' i.e.supporting a base for gang and/or other, like Monarch Programming, containment agents, damage control, and further aggressings. I also recognize this all-black sub-gang as alien with intents like the other sub-gangs, and my coincidence with them is extorsive, exploitive and propogandistic, much like that 10 y.o. kidnap torture-induction repeated for effect and your helpless witness.

I also read the psycho-babble, which as rudimentary descriptions of phenomena that is undifferentiated from the attachments thereto, mixed with apparitionous/hallucinatory tools to imprison and torture anybody noting the routine poisoning of 'certain'/'special' cities, like 'paranoia for believing unknown persons are poisoning' etc. I recognized arsenic from Grants Pass water. That took valuable speaking time to protect myself here. And the 'stiff' image you may perceive has to do with their painful brain damaging, used as well as derailing that entertainment status.

The world has turned upside-down with the change in communications of the Internet; used to be top-down as communications necessitates, now bottom-up or grass roots due to the Internet, communications structuring. One person can appear an office/consensus/group: Indoctrinating/brainwashing/hypnotising people to fail to perceive the discrepancies, is something in which Portland should vociferously fail to take part. Portland has THE reputation for not accepting upon careful scrutiny: b.s.. Big Lies gone over elsewhere, authority impersonations, political warrants however disguised, intrusions of groups and legal fiction, Programming Liars and so forth and the like, statement, confessions, and events dictated by torture/other-hypnotisms; and you have not corrupted this grand tradition and caretaking; in fact not had much call to, except this poisoning persecuting gangster gang portable electric chair. You should at least disclaim laxity on this drugging, refuse to have Portland Airports used for dispatching/assault bases, use sensitive detection and rejection of poisoners on mass transit, and actually clean and remove those 'cat hollow' drugs/fixatives from MAX and the rest; not just use my usurped life or this note as a testimonial for cleaning agents. I recall an identical situation, to the details, from 1981 ap., but only in repetition mostly, due to their use of a memory-altering chemical. I probably won't remember this next year, already, from the brain damage and chemical destruction of brain processes, but at a guess, they have one more massive assault with some more specific or a greater quantity of memory-destroying drugs. I assume this will be along SE Morrison at 6th, or SE 6th at Morrison. It's unlikely that a personal meeting benefits anything I am trying to do e.g. remove or stop this chemical assault and other assaults -- impetigo, skin eruptions, intestinal and respiratory pathogens -- and also stop their visual assault of imprinting very ugly and malicious mugging faces using chemicals for the memory-fixative so to speak. That latter is why they support personal interviews with the Police; more brain space occupied vacantly of vocation. Some 20 or so officers over decades have tried to 'tune into' the gang to get a fix on their operations, and either none of them had any luck at it, or the point devolved to that of the gangs' constructions. Not a street gang, just operating on the street. The debate if the Police are appropriate agency to deal with something that purports, almost undoubtedly falsely, to have more dangerous backing e.g. international terrorism; but in lieu of an intelligence agency, and considering that they can't rank very high, being subject to their own poisons, if it isn't a bluff; probably the Police can handle it without compromise. Upon pointing out in that letter to Tri-met filed with City Hall -- you are welcome to read it -- that kidnapers from some 30 years ago appear to be re-setting the psychological paralysis devices they used then and the operations-mandatory-compulsive they use to extort victims say, into cars without physical force visible at that time; apparently resulted in a few expensive tickets like that \$172 ticket from Tri-met for peddling a bike near empty MAX tracks, when I wouldn't travel MAX on my own vocation ever with the gang using it as a chemical can for drug inductions; and a few other obvious threats: a 'new' scary Police; means a drop in skin temperature and a few other effects indicating deliberative connection beforehand or particular targeting, and harassment of the 'too kind' type from Security Guards. Most conspiricists would call that 'damage control' and those 'new security or Police', containment agents, perhaps, if the events rank that much to them. I am not a conspiracy anything, but not an idiot either, and their 'deceptions' are blunt, constructed to make idiots when considering them more; very typical. There aren't any females left to kidnap and I haven't any more than those 15 cars and 17 houses stolen, most of the cars straight GTAs, and most of the houses in Portland; more or less what anybody can earn in a lifetime; but they have some target; perhaps the next town as well. I timed them at 20 minute intervals in Ashland, where the main streets are fewer; including that on Christmas Eve; when nobody in the entire town drove a car, the gang still drove their decrepit cars and pick-up trucks to spray poisons on the High School vicinity and my vicinity as well, pedestrian. Portland is more complicated e.g. The downtown library looks deserted since the election, when people perhaps realized the chemical-can the gang was making of it, but there are still the same number of 'token blacks' i.e. gangsters or covering/paving etc., occupying all directional walking traffic points there, to make maximum visual 'notice' or brain insult. In Portland its 1) a guess and 2) impossible to note, even when obvious. That skin-temperature drop is the same as that when the 'new scary Police' is cruising around: you can make of that anything, but extensive brainwashing is what it is, with imperturbable connections: If these are

regular enough, and/or if the gang makes direct references to the 'stomach fear' etc. they are causing, which they do quite a bit -- "Jews invented psychiatry" so they don't want a psychiatric dismissal apparently, from their own statements -- I assume some connection. No point in complicating this with too many Police 'standing too close' as the gang states it. In Ashland they used Mexican-looking gangsters, same cars and airplanes as here, and in the 70s at PSU Arab/other-looking gangsters and some Mexicans also; I recall them being led through third floor Math Building in chains. They have several gangs in Portland, the most 'visible' being that rotund black gang with the machined greased English, who 'changed themselves' without a break into that taller, much more dangerous black all-male gang currently. The drivers I don't get much look at: I go there regularly like any good citizen and record license plates of obvious cars with poison, but put these into a large email text I haven't sent yet due to lack of ability, with the poisons, to censor it enough to avoid insult other than inadvertent, that should go to City Hall.

I'm more or less sure that I will probably regret writing this: It goes directly from the email or otherwise to the gang, and they use animal training methods e.g. poisoning with affixed 'communications' noting the details why, about this type of thing, probably to intimidate 'you'/they/other their next target; I've already documented it. Also, the 'new Police' have their own 'criminal apparatus' and it doesn't require any activity at all; take that last 'morals charges' in Carson/Stevenson, Washington. Free use of strychnine and brainwash buttons and obvious motives, including spare-tire-around-the-back-of-the-neck Nazi/Goebbel bastards muddling around in classic Nazi contrivance. The kidnapers and poisoners/housewreckers are always in conjunction with the "special Police" with those aggravated badges -- like the one arrested by Portland Police that I noticed decades ago impersonating a Mult. Co. Sheriff -- or obvious 'fmaily' connection thereto with that 4 am blindsided -- chicanery -- \$500 ticket in Myrtle Point, a few years later. It's a serious business unless you are rich, so it's implied, and their propaganda includes 'Police informer' which is all a personal note can deal with. I am not with any of this, regardless of appearance. I complain to the most likely functioning agency about permanent brain damage for malicious or animal-training methods by a child-kidnapping/torture-induct gang presently trivializing this as 'stench' still crippling even in the cover: that is the Police. It's likely the Police have orders to not bother them, do not have the resources to deal with a paramilitary or fascist/foreign organization, or otherwise are useless. Portland brags of being civil, so I give them a try at this. I have no reason to consider that anybody poisoner or hearing-officer here, is a Portlander. I notice the same hock-shop Marshall's badge torturing-kidnapping 'Police' removing here within the last few months, as have been noticed elsewhere, and that's the second point of complaint, a 'heads-up' one might say. However, they don't kidnap in the cold; they drug everybody thoroughly beforehand. They contrive things to make idiots about anybody following their prescribed 'analysis' of them. I don't think they can operate via Portland, but, I recall the drug torture cases of the State of Oregon in the early 70s, being one of them, still not a possibility of recovery, and the numerous Nazi-experiment medical atrocities both directly from the State and the scavengers who are sycophants. You can see my considerations here. Their method is to contrive a Monarch Programming scenario brain-set, with idols and icons in separated areas of brain, and then brain damage all higher functions -- their major hit was Saturday before last which sent one to the hospital and that's just for cover; they even included a 'fanfare' of horns preceding their major-hit honcho with the clearly illegal poisons -- easy to lead them around, even remotely, after. Generally, most Police forces pay them for this in some type; that it involves atrocity doesn't figure for them. Take 'chuckie' -- racked up two houses and four

cars stolen personally -- with the 'handfuls of cocaine' in that white middle class Jewish neighborhood I observed him in, trying to manufacture excuses for 'reaction' thereto by his Police forces; nobody even could figure what he was about. They changed their attack to an anti-drug propaganda, trying to assimilate anything they can't destroy. It's a classic. He is apparently a Deputy in Grants Pass now, still trying to infiltrate youth and using verbal hostility - 'sh4t talking' -- to bully his way past elementary school officials, as I noticed last observation during some routine matter in the area. I've been in Oregon decades. I recognize Myrtle Point scammer Police, and the 'chuckie' syndrome as alien, and Portland still appears more or less routine. I am also too ill, from direct inflicted brain damage and physical excision of brain areas for example and then 'too many phony rescuers', to deal with this personal meetings. I also don't have to, in Portland; restricted to a few poisoned square miles is enough threat to anybody else. Elsewhere, when they need one for their machinations, they have means to extort one there, including direct use of the Police apparatus.

In case it's of any interest, they also apparently have the belief, another Monarch Programming vomit, that their icons are external, which they are to a certain extent of brainwashing; and they are changing this last week, from thousands of hideous black gangsters mugging for eyesores and poison to set it in, to a different set, apparently in the mistaken belief that this will be my appearance -- the sh\$t they are throwing now visually and chemically -- before the City Council for a brief public presentation soon. You no longer are talking to a shrunk-head (chemically) local scapegoat, but probably a Mr. Heroin among the kids who listen, or something like that, with Nazis for rescuers as it appears to them. I am also not fooled by the large number of undercover agents as the 'new homeless' jamming into town; spotless clothing new camping equipment; about as believable as a Margaret White portrait of the Nazi Concentration camps, of which it took a 1000-page tome to demonstrate what is obvious in the photos. Routine Portland Police are just Oregon citizens drawn to civil service. The other Police are a reaction bully force for some status quo or fascist structure about which nobody knows or cares, and when they get rotten they intrude Mafia-type like presently; so people assume they are just that or something similar. It's possible I could include this document in some additional complaint to City Hall at some time.
