-Fountain Place Management

We the tenants of Fountain Place Apartments, 929 S.W. Salmon, Portland, Oregon 97205

For over three years, we have endured an infestation of Bed Bugs. The Bed Bugs are throughout the building but Cascade Management has only treated individual rooms that either complained numerous times or where Bed Bugs are found during the recently enacted bi-yearly inspections.

When we complain, we are sometimes told that we caused the problem. Some apartments have never been treated, while other apartments have been treated several times but there are still Bed Bugs. The problem is the entire building needs to be treated in one comprehensive operation. All the current method does is to chase the Bed Bugs from one apartment to another part of the building. If one person gets their apartment treated their neighbor gets Bed Bugs. They can live for over six month on one bite of a human. Bed Bugs can live in the common areas or in people's apartments, they move in very small spaces and are one of the most adaptable creatures that live with human hosts.

We need real help. This is our first step. We our looking into legal and political options.

Thank you, Tenant of Fountain Place Apts.

We are tenants of Fountain Place apartments. We here by request that our entire building be treated for Bed Bugs in one comprehensive treatment. This is the only way to address our over three year Bed Bug infestation. We would like this problem addressed as soon as possible.

Attached is a Petition signed by Tenants living at Fountain Place Apartments-

Thank you.
