1) Legislation Title:

Authorize temporary operating loans between various funds to provide interim funding to cover lags in federal, state, and other grant reimbursements (Resolution)

2) Purpose of the Proposed Legislation:

The grants funds, including the Grants Fund and the Community Development Block Grant Fund are reimbursement funds such that all expenses in the fund are expected to be reimbursed by entities outside of the City of Portland (the City). The City accounts for grant reimbursement on a modified accrual basis, per the requirements of Generally Accepted Accounting Principles (GAAP); under this modified accrual basis of accounting, expenses are incurred at the time services are delivered or goods are provided and revenues are recognized when reimbursement is received. This creates a lag between expenses and revenues. This lag in the grants funds can result in temporary negative fund balances. Oregon State Local Budget Law requires that fund balances not be negative at the end of a fiscal year. GAAP requires that governmental funds not end the year with negative cash assets. The reimbursement nature of the grants funds results in the funds frequently carrying negative cash balances. Interfund loans to the grants funds are necessary to comply with Local Budget Law and GAAP and such loans must be approved by City Council.

3) Which area(s) of the city are affected by this Council item? (Check all that apply—areas are based on formal neighborhood coalition boundaries)?

FINANCIAL IMPACT

4) Revenue: Will this legislation generate or reduce current or future revenue coming to the City? If so, by how much? If so, please identify the source.

This ordinance will not generate additional revenue. However, it authorizes certain funds to receive loans totaling \$19.9 million from other funds.

5) Expense: What are the costs to the City related to this legislation? What is the source of funding for the expense? (Please include costs in the current fiscal year as well as costs in future years. If the action is related to a grant or contract please include the local contribution or match required. If there is a project estimate, please identify the **level of confidence**.)

Because the amount of the loan will not be known until the year-end close process is well underway, the loan not-to-exceed amounts included in the resolution are conservative (i.e. high). In the fall, during the year-end close process, once the necessary loan amounts and the responsible bureaus' ability to pay are determined, OMF-Accounting will execute the necessary loans. While the loans authorized total \$20.0 million because of the conservative estimates, the expected actual loan amounts are projected to be considerably less. The repayment sources for the loans are the grant receivables and are considered to be very secure.

6) Staffing Requirements:

- Will any positions be created, eliminated or re-classified in the current year as a result of this legislation? (If new positions are created please include whether they will be part-time, full-time, limited term, or permanent positions. If the position is limited term please indicate the end of the term.)

No.

- Will positions be created or eliminated in future years as a result of this legislation?

No.

(Complete the following section only if an amendment to the budget is proposed.)

7) Change in Appropriations (If the accompanying ordinance amends the budget please reflect the dollar amount to be appropriated by this legislation. Include the appropriate cost elements that are to be loaded by accounting. Indicate "new" in Fund Center column if new center needs to be created. Use additional space if needed.)
