Proposed Change Order #5

# Conditions Prior to Construction

Head-in parking makes it impossible to walk between the parked cars and buildings along much of SW 11th. Enforcing parallel to the curb parking could allow space for an improvised sidewalk at no cost to the city. Left: the frequent service line 8 bus speeds by a pedestrian. Right, a person walks in an improvised sidewalk at Gibbs and 11th, but crosses into the traffic lane because a van parked head-in and blocked his way.
