Subject: Abandonment of Diversion Structure I-84 MP

Dear Ms Griffith

This letter serves as an revised agreement between the City of Portland Bureau of Environmental Services (BES) and the State of Oregon Department of Transportation (ODOT) for providing traffic control during the above BES project. This revision is based upon the final billing for the personnel and equipment required to provide a controlled, safe work area by ODOT. This agreement sets forth the provision that ODOT will provide staff and equipment for the following, with revisions to the original agreement shown in bold.

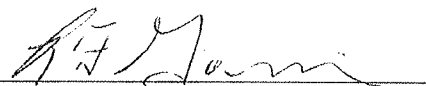

- a) Close the northerly west bound lane of I -84 under the NE 12<sup>th</sup> St Bridge for approximately one (1) **additional seven (7)** hour while a manhole entry is made by a BES contractor to plug a sewer main. **The contractor was not able to set the plug at this location. The additional time was required to maintain observance for possible leakage while grouting the 12-inch line.**
- b) Close the **two (2)** northerly east bound lane of I -84 under the NE 12<sup>th</sup> St Bridge for approximately six (6) **eight (8)** hour while the diversion manhole is abandoned by a BES contractor. **The additional lane closure was not originally estimate in the original agreement and required additional personnel and equipment.**
- c) **Additional crew was required due to poor weather conditions in order to provide safe lane closures**

For the service outlined above, BES will be responsible for paying 100% of the actual costs to the State estimated to be approximately \$5,000-. **\$10,000**

If the terms of this are acceptable to ODOT, please sign in the space provided on return the original to this office. If you should have any question please contact me at 503-823-7768
