

ORDINANCE No. 186281

*Authorize contract with Motorola Solutions, Inc to provide a public safety emergency radio system for a not to exceed amount of \$18,289,174 (Ordinance)

The City of Portland ordains:

Section 1. The Council finds:

1. The public safety emergency radio system is accessed by over 6,500 individual radios used by the City of Portland, surrounding public safety agencies, and other regional partners.
2. The current radio system relies on equipment that was designed in the early 1990s and most components of the system are no longer supported by the vendor. This means that no warranties or vendor service agreements are available for the equipment and repairs must be made with used, as-is replacement parts. The equipment is becoming less and less reliable over time, and has reached the end of its useful life.
3. The City and regional stakeholders wish to replace the current system with a comprehensive, mission critical, interoperable public safety-grade emergency radio system that will serve the needs of both large and small agencies.
4. The APCO P25 is now the new standard for public safety radio and is supported and encouraged by the Federal Communications Commission. This standard uses transmission bandwidth more efficiently and will be implemented throughout the region and the state for new radio equipment.
5. On November 2, 2010, pursuant to the Council's authorization in Resolution No. 36800, the voters approved a bond measure to fund the radio replacement project.
6. In November of 2012, RFP No. 115097 was advertised, and on March 1, 2013, three responses were received. The proposals were reviewed, evaluated and scored by a diverse evaluation committee including representation from the minority evaluator program, City staff and recognized experts from the public safety radio community in accordance with Portland City Code 5.33.
7. The selection committee identified Motorola Solutions, Inc. as responsive to the requirements of the solicitation and was determined to be the highest scoring proposer to meet the needs of the City and partners. The City issued a Notice of Intent to Negotiate and Award a contract to Motorola Solutions, Inc. on May 22, 2013. No protests were received.
8. Motorola Solutions, Inc has a current City of Portland business license tax account, is in full compliance with the Equal Benefits Program, and their EEO Certification is current

through 9/16/2015. Motorola will be subcontracting to Commdex Consulting, LLC, an Oregon certified Minority Owned Business, and Benetti Partners LLC, an Oregon certified Women Owned, Minority Owned, and Emerging Small Business.

NOW, THEREFORE, the Council directs:

- a. The Chief Procurement Officer is authorized to execute a contract with Motorola Solutions, Inc. for replacement of the public safety emergency radio system for an amount not to exceed \$18,289,174.26, provided the contract has been approved as to form by the City Attorney's office.

Section 2. The Council declares that an emergency exists as a delay in proceeding with executing this contract may result in additional expenses and delay in implementing this project to provide a mission critical, public safety-grade radio communication system; therefore, this Ordinance shall be in full force and effect from and after its passage by the Council.
