

ORDINANCE No. 186296

\*Authorize an agreement with Qwest Corporation dba CenturyLink QC and Qwest Communications Company to provide land line and data transport services for a not to exceed amount of \$7,500,000 for a five year term. (Ordinance)

The City of Portland ordains:

Section 1. The Council finds:

1. The Office of Management and Finance, Bureau of Technology Services (BTS) is responsible for the support and upkeep of the City's communications systems. To this end, the Bureau of Technology Services provides and supports land line and data transport services for City bureaus. These services are divided into three distinct areas:
  - The Centrex and miscellaneous analog service has 1,330 combined lines that provide dial tone and other features such as transfer and conference calls connecting the City to internal and outside callers.
  - OC12 and DS3 services are the City of Portland's largest. These are considered the backbone of the City's infrastructure allowing the City to interconnect multiple sites and network services. These services provide portions of the City's communications infrastructure (interconnectivity between the City of Portland buildings that support data transfer). The contractor provides and maintains these services to which the City of Portland subscribes.
  - T1 services are those connections that provide data or voice services. These facilities are used for data and voice connections to many of our fire stations, parks facilities, police precincts, and other off-site locations. These services enable City staff to have access to email, dial tone, the Internet and other City applications.
2. In accordance with City Code 5.33.160, the City may participate in Permissive Cooperative Procurements to establish contracts or price agreements for the acquisition of goods or services. The State of Oregon, Department of Administrative Services has conducted a competitive solicitation and executed an agreement with Qwest Corporation dba CenturyLink QC and Qwest Communications Company for land line and desk phone based services. This agreement allows governmental agencies within the state to utilize the agreement for such services.
3. On September 20, 2013, in accordance with PCC 5.33.160, the City posted a Notice of Intent to Award a Contract to Qwest Corporation dba CenturyLink QC and Qwest Communications Company. No comments were received.
4. Qwest Corporation dba CenturyLink QC and Qwest Communications Company has a current City of Portland business license tax account, is in compliance with the Equal

088081  
Benefits Program, and their EEO Certification is current through March 20, 2014. Qwest Corporation dba CenturyLink QC and Qwest Communications Company is not a State certified firm. The Bureau's level of confidence for this price agreement is high, as there is very good historical information showing purchases made for these types of services for the bureau.

NOW, THEREFORE, the Council directs:

- a. The Chief Procurement Officer is authorized to execute a five-year agreement with Qwest Corporation dba CenturyLink QC and Qwest Communications Company for land line and data transport services for a contractual total not to exceed \$7,500,000, provided the agreement has been approved as to form by the City Attorney's office.

Section 2. The Council declares that an emergency exists as a delay in proceeding with executing this agreement may result in additional expenses and delay in providing a mission critical, public safety and on-going telephone communications system for the City of Portland; therefore, this Ordinance shall be in full force and effect from and after its passage by the Council.

Passed by the Council:

OCT 23 2013

Commissioner: Mayor Charlie Hales
