| A-1<br>[N140001<br>] | Portland<br>Bureau of<br>Emergency<br>Management | One special<br>purpose truck. | The Bureau of Emergency Management is requesting the addition of a special purpose truck. The truck will available for daily use and will be used to tow the current emergency communications trailer to and from the scene of emergency incidents. The trailer is currently in the City of Portland fleet and has been outfitted specifically for emergency disaster response with a power source, communications equipment and other necessary supplies. The truck will be specially equipped with a high GCWR rating to tow a heavy trailer and will have the ability to transport personnel to the scene of such incidents, as well as daily operations. Because of the specialized use and equipment on this truck the City's motor pool is not an option. CityFleet has reviewed the underutilized reports to see if such a vehicle is available at this time to fill this need and there are no vehicles available at this time. | Addition to the Fleet?  | <input checked="" type="checkbox"/> |
