Subject: Addressing City Council during Wednesday meeting

Hello Karla,

Tadele Gelagay from St. Mary Ethiopian Church and I would be interested in addressing City Council about continued funding for green infrastructure as a cost-effective way to improve community livability and achieve a healthier environment.

The St. Mary Church and Johnson Creek Watershed Council worked together with Green Lents and Depave to install a bioswale to reduce flooding in the church and improve Johnson Creek water quality.

We feel the project is a good example of why the City should continue its investment in green infrastructure through its Grey to Green program, and would like to share this message briefly with the City Council.

Please let me know how to go about scheduling a time to address City Council during the Wednesday communication section of their meeting.

Thanks and have a happy holiday!

Matt

Matt Clark
Executive Director
Johnson Creek Watershed Council
