

To Whom It May Concern- As a concerned resident of Multnomah County, I am writing to you to not allow the Port of Portland to annex and rezone 300 acres of West Hayden Island for industrial development for the following reason:

1) The Planning and Sustainability Commission made a commitment to the community that it would not recommend allowing West Hayden Island development to move forward without a binding agreement in place that the Port of Portland fully mitigate for all impacts to the environment and the community. The draft Comprehensive Plan turns its back on that commitment and does an end run on five years of public process. It breaks faith with the community and the commitments of the Planning and Sustainability Commission.

And I urge you to do the following:

2) The Planning and Sustainability Commission should remove the section on West Hayden Island from the Comprehensive Plan and instead retain its current zoning designations or designate it as openspace. It should not be designated for industrial zoning or future industrial development.

3) The City should not convert critical natural areas or openspaces to industrial use. If the City needs more industrial land, it should focus on cleaning up its 900 acres of brownfields, intensifying use of its industrial land base, and preventing organizations like the Port of Portland from converting existing industrial lands to other uses in order to make a profit.

Please choose sustainability and preserving quality of life over short-term greed and profits for the wealthy few!

Sincerely,

William C. Burgess
