The Fall Supplemental Budget, as proposed, includes a total increase in FY 2014-15 expenses (including contingency) in the General Fund of \$18.2. These expenses are funded with the \$10.1 million of excess beginning fund balance, \$6.3 million of unspent contract encumbrances, \$361,730 of excess program revenues, and \$1.4 million of bureau generated revenues.

### **Funded Items**

What follows are details of the allocation of the \$18.2 million of proposed adjustments.

• **Encumbrance Carryover:** The proposed supplemental budget includes encumbrance carryover of **\$6.3 million**. Encumbrances

reflect commitments of prior year resources. To the degree that spending on those contracts did not occur, those funds are carried over into the current year. This category includes funding for advances that have been made where the good or service has not yet been delivered.

- **Revenue Carryover:** Per City Financial Policy (FIN 2.06), bureaus may retain all excess bureau-generated revenue above program costs. The proposed supplemental budget includes a total of \$361,730.
- Non-Discretionary Items: Bureau programs that generate revenue are increased by a total of \$1.4 million, reflecting increased costs and revenues for those programs.
- Excess Balance and Contingency: The remaining \$10.1 million of excess balance and an additional amount of \$1.0 million from contingency is proposed to be allocated as follows:
  - Capital Projects: Funding for \$4.2 million of bureau capital requests, exceeding the 25% minimum requirement. See below for a further discussion of the ranking process.
  - o **Program Carryover:** A total of **\$2.3 million** of projects that received one-time funding in FY 2013-14 or earlier but were neither spent nor encumbered in prior years are proposed for funding. These include the Public Safety System Revitalization Project (\$1.2 million), Home Start (\$0.8 million), Summer Works (\$195,000), and a Revenue Bureau Innovation Fund allocation (\$151,369).
  - New Projects and Programs (including Debt Repayment): The supplemental budget includes \$3.3 million for new and expanded projects and programs. In addition, a total of \$1.2 million is included for debt repayment that will result in interest savings to the General Fund and will create roughly \$350,000 in ongoing resources to be allocated in the FY 2015-16 budget process. Exhibit 4 contains a complete listing of all newly funded items.

## Contingency

Prior to this supplemental budget action, total General Fund contingency stands at \$11.9 million. This includes unrestricted contingency, compensation set-aside, funding for items previously approved by

Council, and a set-aside to true up the General Fund Overhead model for Spring carryover. The above-mentioned changes would result in a net draw on contingency of \$2.0 million, leaving \$9.8 million. The changes include three items previously identified by City Council through ordinance (totaling \$203,600) and an amount set aside for on-body cameras in the Police Bureau (\$834,619), and an additional draw of \$912,994 million.

The remaining contingency after proposed Fall BMP changes includes the following:

- \$1.2 million unrestricted contingency
- \$8.4 million compensation set-aside
- \$408,570 set aside to fund a true-up in the General Fund Overhead model during FY 2015-16 budget development

## Capital Projects

As noted above, the proposed supplemental includes \$4.2 million per the capital set-aside policy. That policy states:

"At least 25 percent of General Fund discretionary revenue that exceeds budgeted beginning balance (adjusted) shall be allocated to infrastructure maintenance or replacement in the fall budget monitoring process. The percentage calculation shall be based on any discretionary funds in excess of the budgeted beginning balance, adjusted for the difference in encumbrances carried over from the prior year."

Over the summer the City Budget Office convened a citywide workgroup to develop a process for ranking major maintenance and infrastructure replacement projects and to develop recommendations on funding options for the City's deferred maintenance backlog. In total, 35 projects requesting \$45.3 million in General Fund resources were submitted by bureaus for consideration in the FY 2014-15 Fall Supplemental Budget.

The items proposed under the policy and based on the rankings include:

- \$1.8 million for signals, streetlights, bridges, and other structures in the Portland Bureau of Transportation
- \$1.9 million for roof replacement and other structural upgrades at the City's emergency dispatch center.

• \$490,925 for central Heating Ventilation Air Conditioning controls and a number of Portland Parks & Recreation facilities to ensure continuity of operations for these high-use centers.

The total proposed supplemental exceeds the 25% policy minimum of \$2.5 million.

## Current Appropriation Level (CAL) Changes

The supplemental ordinance directs ongoing resources be used to upgrade the City's fuel station infrastructure.

The Enterprise Business Solutions (EBS) Fund was established in FY 2009-10 after the implementation of the SAP system. Currently, the costs of EBS services are allocated through a model that uses an assortment of weighted metrics including number of FTE (25%), budget (50%), and number of SAP cost objects. The data used to supply these metrics has been frozen since FY 2008-09.

The proposed supplemental budget includes a change to the EBS cost allocation model. The new methodology will utilize metrics from the General Fund Overhead model, which include budget size and FTE, and will cap the amounts allocated to pass through funds. It is designed to be easily updated annually, stable, and promote the use of SAP citywide. The EBS Project Advisory Council supports the new metrics.

Moving to a new rate model will result in changes to the amounts paid by City bureaus for EBS services, including a shift to the General Fund of approximately \$1.15 million. Non-General Fund bureaus will generally experience decreases in EBS costs, including the Bureau of Environmental Services (\$578,000), the Portland Bureau of Transportation (\$286,000), the Portland Water Bureau (\$157,000), and the Bureau of Development Services (\$123,000). Additionally, several funds that were not charged under the outgoing model will receive EBS charges for the first time, most notably the Tax Increment Financing Reimbursement Fund (\$152,000).

The proposed supplemental budget includes adjustments to the Current Appropriation Level in an effort to mitigate the impacts of this increase for General Fund bureaus.

## Non-General Fund Changes

Below is a summary of change in all funds other than the General Fund.

Green Streets projects. The increase in bond expenses is for the cost of issuance for the Selbwood indige improvements. The change in contingency is primarily due to a draw for bureau overhead, a draw for mail maintenance & security costs, and an analysis of the security costs of the selbwood indige improvements. The change in contingency is primarily due to a framework of the security costs of root replacement, funded by an increase cash transfers by \$2.4 million for costs of root replacement, funded by an increase cash transfers by \$2.4 million for costs of root replacement, funded by an increase cash transfers by \$2.4 million for costs of root replacement, funded by an increase from General Fund discretionary of \$1.5 million and contingency of \$5.50. Additional draw on contingency of \$1.50. Sp. and corresponding increase in bureau expenses relates to 2.3 new positions, one of them is funded by the sevent form \$4.1 - 1 project.
