

December 3, 2014

Subject Property: 3366 SE Powell Blvd. (Owner's open to being a development partner)

- We would like to explore the possibility of a partnership between the public and private sector in developing the property.
- Maker space in combination with co-housing (a place for innovation and development)
- Micro condos and apartments (small space strategy is the most important in sustainability design)
- Multi generational living with mixed economic status (homeless to entrepreneurial)
- Revisiting how we organize ourselves and the way we live.
- Making housing affordable (fostering a cultural shift of different expectations to accommodate different living arrangements)
- High density infill that will help mass transit to evolve.

Hello Norm,

November 26th is the next available date to speak but, that is the day before the Thanksgiving Day Holiday. Currently, the meeting on 11/26 has not been canceled as I do not have any members of Council who have turned in absences. After that the next available date is December 3rd or December 17th.

Please let me know if either of these dates will work for you.

Regards,
Karla

Karla,

Would it be possible to speak to the City Council on October the 22nd? My name is Norm Yonemura and my phone number is 503-757-7660. The address of the property is 3366 SE Powell Blvd. We would like to speak about the possibility of transforming this property into a makerspace/ fablab and cohousing project. We would like to explore the interest level of possibly partnering public and private resources along these lines, our interest is not restricted to this property. If I should be talking to other departments please direct us to them.

Take good care, Norm Yonemura
