

Hello,

I am writing to advocate for the change of zoning that lines up with the mixed use comprehensive plan designation for my home at 8111 Se 11th ave. I would like to see the gap between 7th and 11th ave on Tacoma street be zoned in compliance with the mixed use neighborhood designation as well. As the area around 13th ave continues to grow and diversify, the properties west on Tacoma are being increasingly neglected and allowing for mixed use would be the best way for the area to catch up with the progress that is needed to move the neighborhood forward.

Please consider rezoning the corridor to bring about a much needed injection of business and newer housing to our area.

Regards,

Raymond Koernig
