Subject: No to Pembina and other unsustainable fuels

Hello,

Please register my strong opinion against allowing Pembina or any other company to use the Port of Portland or any other means to ship LPG. Not only is the technology of fracking irresponsible, it is unsustainable and unnecessary. We need to continue showing the world that there are better ways. We can, will, and are doing it. Hooray Portland! Hooray Oregon! And Hooray you.

Sincerely,

Ben Mendenhall
3826 SE 33rd Ave Portland OR 97202
