

As a resident of North Portland and a longtime member of Portland Audubon Society, I am writing in opposition to the proposal to amend the environmental zones at Terminal 6 to allow the construction and operation of a new propane pipeline.

I don't believe the Port has fully or satisfactorily analyzed the potential risks of such a facility. Further, I don't believe the number of jobs generated by this project would justify the known and unknown harm to our environment, both locally and beyond.

Thank you for your consideration.

Best regards,
