Subject: LPG amendment

Ms. Anderson,

This is one of the worst ideas I can imagine for Portland and the Columbia River and all the communities affected by the transportation of LPG. Canada's fossil fuel industry is determined to use the Pacific Northwest as their superhighway to Asia and damn every consequence so long as they get their profits. From Fracking to liquefying and shipping this is a BAD idea for the global environment and for our city and for the invaluable asset of the Columbia River.

I plan to be at the meeting on January 13th and I will object in person to this abomination. AMENDING THE ENVIRONMENTAL CODE IS ABSOLUTELY UNACCEPTABLE!!
