

Dear City of Portland Planning and Sustainability Commission,

The science is in. We must not blindly continue depending on fossil fuels for the sake of the continuing habitability of our planet.

I urge you to deny any type of construction permits to this evil company. The people of Portland do not want construction of this project to move forward.

This is a question of right and wrong. It is a question of good versus evil. Moral versus immoral. I could go on and on.

Make the right decision.

Regards,

Jacob Scritsmier, a Portlander, an Oregon Native, an Earthling, and a human being
