

I am opposed to the zone change by Pembina Corp. to facilitate a propane pipe line through sensitive and precious riparian land. This zone change would allow development on land set aside for other creatures on this planet besides the human species.

I quote the first lines of the American poet, W.S. Merwin's poem, *The Last One*:

Well they'd made up their minds to be everywhere because
why not.
Everywhere was theirs because they thought so.

When do we see that each action, each decision, finally, permanently, will kill the life on this earth. I despair. No Pembina propane pipeline.
