**Subject:** Citizen against propane pipeline

Dear Committee,

I live on a houseboat on Multnomah Channel and drive Highway 30 daily. I am astounded at the number of hazardous train cargos, storage facilities, and Esco's mine tailings buried along the Channel. Enough is enough! Please do not allow another environmental hazard in our neighborhood. Our City deserves better protection and you can provide it by not allowing a zone change for Pembina.

Sincerely,

Carol Sherman-Rogers

14928 NW Mill Rd. Portland OR 97231
