

Jan 11, 2015

To:  
Portland Sustainability Commission.

Please do not make a variance in the  
land use regulations to allow propane  
to be piped over our riparian zone.  
Propane is not safe and spills are  
likely, especially in the event of an  
earthquake.

We love our river and must protect  
her + all the dependent creatures.  
Thank you,

Emily W. Herbert
