

I'm a union member out of Local #242 Boilermakers.  
support and ask all of you to support this  
project because it will create 6000-8000 local  
jobs. This is also a 5 million dollar project  
that asks for no financial support and revenues  
12 million dollars in property taxes annually.

If we want constant and steady work, travel  
& a must in my craft, it would be nice to  
have more local and have more local job opportunities.

Thank you for your time!

David Spitsyn
