

PEMBINA IS WAGING WAR ON OUR PLANET

I've attended 3 meetings where Pembina has presented its insane plan. Their fracked propane should stay in the ground.

PORTLAND LIVES MATTER

I'm a Cathedral Park homeowner. Pembina's proposal directly threatens my life and property. Yours too. Their propane trains would all be like bombs running through our city. If a bomb goes off, there will be no insurance coverage. Portland and Oregon will be left to pick up the pieces.

DON'T MAKE PORTLAND A SACRIFICE ZONE

Send Pembina packing. Save our city and our planet.
