

Dear Members of the Commission,

I strongly oppose the establishment of a Propane Export Terminal in Portland. Why risk our beautiful city to the possibility of explosions and spills just to prop up the fossil fuel industry which is a major cause of climate change. I do not want Pembina Pipeline Corporation to bring propane into Portland by rail, liquefy it, and then ship it out on the Columbia River. Pembina Pipeline Corporation gets the profit and we suffer the degradation of our environment. We have to take a stand on climate change before it is too late.

Thank you for your consideration.

Respectfully,  
Mary A. Bartholomew
