Subject: Please do not support the proposed propane export terminal

Dear members of the committee,

This proposal may be highly beneficial for Portland's economy. However, *we cannot afford to commit new infrastructure that props up an unsustainable and thoroughly damaging industry such as propane*. Fighting climate change will be hard enough without us continuing to aggravate the issue. We're Portland. If we're not going to make a stand, who in the U.S. will?

Sincerely,

Aram Glick
