Subject: comment on Pembina proposal

Dear Commissioners,

Please deny permits for a propane terminal. This industry is too dangerous to locate in Portland or any population center. The small number of long-term jobs do not warrant taking this level of risk.

Also, don't fall for the claims that this propane offers net carbon benefits as a "bridge fuel." Its likely destination in Asia is plastics manufacture. It is more likely to serve as a bridge fuel if it is not shipped overseas, and has to be used on this continent.

Thank you for your attention.
