

IMPACT STATEMENT

Legislation title:

*Authorize a contract with the lowest responsible bidder for the East Portland Rapid Flash Beacon Project (Ordinance)

Contact name: Rich Newlands, Project Manager

Contact phone: x7780

Presenter name: Rich Newlands

Purpose of proposed legislation and background information:

The purpose of this action is to authorize the project to proceed to bidding. This is second of two implementation phases for improvements to 17 high traffic volume arterial crossings in outer east Portland, per funding provided to PBOT via Rep. Fagen of the State Legislature.

Financial and budgetary impacts:

No change to PBOT budget- project is in current CIP for FY 14/15.

No changes in staffing levels.

Community impacts and community involvement:

The improvements to be constructed by this project benefit the entire outer east Portland community by significantly improving crossing safety. East Portland accommodates a large number of economically disadvantaged households and has a higher proportion of elders and children than other parts of the City. The East Portland in Motion Implementation Strategy for Active Transportation, adopted by Council in 2012, provided the public involvement that identified the scope of improvement for this project.
