

Exhibit A: 2015 Sustainable City Principles and 2030 Environmental Performance Objectives

2015 Sustainable City Principles

1. Make decisions and take actions that balance environmental quality, economic prosperity and social equity.
2. Think beyond first costs and consider long-term, cumulative impacts when making policy and financial decisions.
3. Purchase renewable energy and make efficient use of electricity, natural gas, oil, propane, transportation fuels and water.
4. Protect habitat and functioning ecosystems that provide critical services to the urban environment.
5. Minimize the release of toxins, carbon emissions and other pollutants when purchasing and using products.
6. Reduce, reuse, recycle and compost.
7. Encourage innovation and cross-bureau collaboration.
8. Engage Portland residents, businesses, and City green teams to promote sustainable practices.
9. Recruit, hire and retain a diverse workforce and ensure equitable services to communities of color and other underserved communities.
10. Measure and report progress.

2030* Environmental Performance Objectives

**2030 is the target year for all objectives, except where noted*

Carbon

Reduce carbon emissions from City operations 53 percent below FY06-07 levels.

Energy Efficiency

Reduce energy use 2 percent annually from FY06-07 levels.

Renewable Energy

Generate or purchase 100 percent of all electricity for City operations from renewable sources (annually).*

Waste

Recover 90 percent of waste from City operations.

Reduce total waste from City operations 25 percent below FY09-10 levels.

Fleet

Reduce fleet vehicle emissions 10 percent from FY06-07 levels.

Water

Water use is the same or less than FY06-07 levels.

Natural Systems

Eighty percent of City-managed natural areas are in "healthy" or "good" condition.

City land and facility management programs receive Salmon-Safe certification (by 2020).*

Stormwater

Manage 50 percent of stormwater from City-controlled impervious areas with sustainable stormwater strategies.

Harmful Pollutants

Fully eliminate the use of harmful pollutants in the indoor environment.
