Presenter name: Consent agenda

Purpose of proposed legislation and background information:

The Office for Community Technology recommends that Council extend the term of the right-of-way use agreement with Clear Wireless LLC through June 30, 2017. The extension would preserve the existing relationship between the carrier and the City while providing time for the two parties to negotiate new terms and conditions. This would be the first extension of the right-of-way use agreement granted to Clear Wireless in 2012.

Financial and budgetary impacts:

The City will continue to receive franchise fees from this wireless carrier's use of the right-of-way. This revenue is intended for the general fund and is not new revenue. This ordinance extension would not affect staffing levels now or in future years.

Community impacts and community involvement:

No future public involvement is anticipated or necessary as this Ordinance extends the term of an existing right-of-way use agreement.
