Subject: Save the Trees

To Whom It May Concern,

Please save the trees. Portland neighborhoods are enhanced by the mature healthy trees in our midst. Please take measures to preserve the quality of our neighborhoods. I live in inner S.E. Portland and have witnessed the destruction of many backyard trees, and street trees in my neighborhood, as developers tear down houses and overfill lots with apartments. Many trees have been lost in this way. Please implement restrictions.

Thanks,

Sue St.Michael
