Subject: april 20 Communications Request

Karla,

I would like to schedule a 3-min 'council communications' on April 20, 2016. The subject is "priority for Sullivan's Gulch Trail engineering and construction funding". I have lived in the neighborhood for several years and have seen studies for the sullivan's gulch trail going back 15 or more years. Yet funding for engineering and construction is not in place. This trail could be a significant addition to Portland's bike infrastructure (from Gateway to the Willamette River). We have marked up all the streets, but not made a significant investment in separated grade paths, which are much easier to ride. As a senior citizen, separated grade paths are more useful than streets. Please consider raising up the priority for Sullivan's Gulch Trail engineering and construction funding.

I understand that Brad Perkins is signed up for a communications that same day. I hope there is space for me also.
