Presenter name: Kathryn Levine

Purpose of proposed legislation and background information:

This ordinance amends an agreement with TriMet for the Portland Streetcar Loop project. The agreement provides for the disbursement of federal funds for the streetcar project as TriMet was the direct recipient and the City the sub-recipient. The agreement stipulates some reporting requirements.

The City and TriMet are amending the agreement to allow time for completion of all grant close out requirements by extending the termination date of the agreement until June 30, 2016.

Financial and budgetary impacts:

This is not a budgetary amendment. This requires no changes to funds authorization or commits new funds to the project.

Community impacts and community involvement:

While the Streetcar Loop Project involved the community, and the Streetcar program engages the community, this is a technical adjustment to the existing IGA with TriMet for time only to ensure the City's obligations as a sub-recipient of federal funding are met.
