

Dear Chair Bough & Members of the Planning Commission, May 10, 2016.

I have a work conflict and have come forward today as a member of the Mixed Use Zone Public Committee and my comments today relate only to the process of this document which you review today. I will be submitting written testimony later on specifics of the draft plan.

Working together, Barry Manning as Project Lead & Bill Cunningham along with PBB staff run an excellent, informed & collaborative process which worked very hard to listen to citizen input and address concerns.

I want to commend these two gentlemen in particular for their hard work, and all the committee members in general for their thoughtful, ~~and~~ intelligent efforts over a long public process.

Member
Mixed Use
Zone Committee

Jessie Pauls, Susan Lindsay
